

[NOVA] How to check attendees into a Cloud Event by scanning QR codes

Marina N.B. - 2025-08-26 - [Events](#)

When attendees register for an event, they receive a confirmation email with a ticket attached, provided that this notification is enabled in the Event Settings. Each ticket contains a QR code that can be scanned to manage their attendance on the day of the event, as it instantly updates the attendee's check in status to Checked In.

How to Check Attendees into an Event

Only members with access to manage the event will be able to check attendees in. You will need a device with a camera that has the ability to scan QR codes (mobile phone, iPad, etc.). Follow the steps below to use this feature:

1. Log in to your account through your club homepage, then click on **Member Area** on the top right under your club banner. [Alternatively, click here to go directly to the ClubRunner login page.](#)
2. Click **Events** in the main menu navigation, then click **Cloud Events**.
3. Click **Manage** on the event you would like to check attendees in for.
