ClubRunner

Domain name purchase through ClubRunner

Omar S. - 2021-06-28 - New Subscribers Guide

If you would like a brand new domain name and don't yet have one, ClubRunner can provide you with a custom domain name. **Simply provide us with your desired domain name, fully spelled out including the ending extension**. If possible list any alternate versions in case your first choice is already taken, ranked in order of preference. As an example:

1. rotaryclubx.org
2. rotaryclubofx.com
3. rotaryx.club
   (.club is a newer domain extension, it works and costs the same as .org or .com)

We will confirm spelling and register the domain on your Club's behalf.

The cost to purchase a standard domain name (.com, .org) using ClubRunner is:
- **$40 USD** per year for a term of **3 years**, or
- **$35 USD** per year for a term of **5 years**, or
- **$30 USD** per year for a term of **8 years**
*(pick only one)

Note: this fee may differ if purchasing 'non-standard' domains (i.e. not ending with .com or .org) or special country-specific domains. Please contact our team for to see if your specialized domain might incur a different cost.

This price includes all setup, maintenance, and troubleshooting for the domain. We will also contact whoever your Club Executives are in 3/5/or 8 years to request a domain renewal.

Private registration is also included with all ClubRunner domain management. This ensures an individual's personal contact information is not available to the public.

You can submit your new domain name request using the the order form here:

Domain name order form

If you would like more information, call us toll free at **1-855-621-2582.**

Alternatively, if you need to perform a **domain transfer** for a domain that already exists, please see our Domain Transfer article.

Clubs who choose to manage their own domain name

NOTE: here is a fee for clubs who register and manage their own domain name, or a "domain aliasing" fee. The cost for this domain aliasing is **$35 per year**. This fee is related to the **SSL certificate and enhanced DNS services**. This means that your club's domain has HTTPS support and can switch to ClubRunner managed DNS services.

The managed DNS services allow your club not to have to worry about ClubRunner related DNS changes, and simplifies our domain aliasing process. This means that if there was a change related to ClubRunner's required DNS entries, we would update these on your behalf. Our DNS services are also geo-replicated, meaning that your end users always get the fastest response to where your club's website is located on the internet, improving access times to your website.

Please note this fee is charged only to non ClubRunner-managed domains. If ClubRunner manages your domain name for you, this fee will not apply.
