

How do I add a new member activity?

Michael C. - 2021-12-24 - Membership Management

New member activities are a good way for your new recruits to learn more about the Rotary Club, both locally and internationally. Formal orientations as well as casual meet and greets are the sort of activity new members can undertake. You can assign established club members as mentors for these events.

1. To add a new member activity, you must go to your club homepage and log in. Then, click on **Member Area** near the top right of the page.
2. Along the top of the screen you will see several tabs. Click on the **Membership** tab.
3. Now, click on **New Member Program**.
4. You are now on the **New Member Program** page. New member activities assigned to you (if any) are listed here.
