## How do I assign or remove contacts from a contact group?

Michael C. - 2022-02-11 - Contacts

You may assign or remove a contact from a custom group individually through their **Contact Profile**. If you wish to add more than one person at once to a group you should make use of the **Assign Contacts** link on the **Groups** page and if you wish to view a list of contacts within a group and remove contacts from that list you should make use of the **View Contacts** link on the **Groups** page.

**Note:** You cannot add or remove a contact from a system group.

1. To assign contacts to a contact group, login to your website and access the Member Area. Next, click on the **Contacts** tab.

2. Click on the **Manage Groups** link.

3. You are now on the **Manage Groups** page. From this page you can add or remove contacts from groups. Click on one of the links below for instructions:
