ClubRunner

How do I configure our website sponsors?

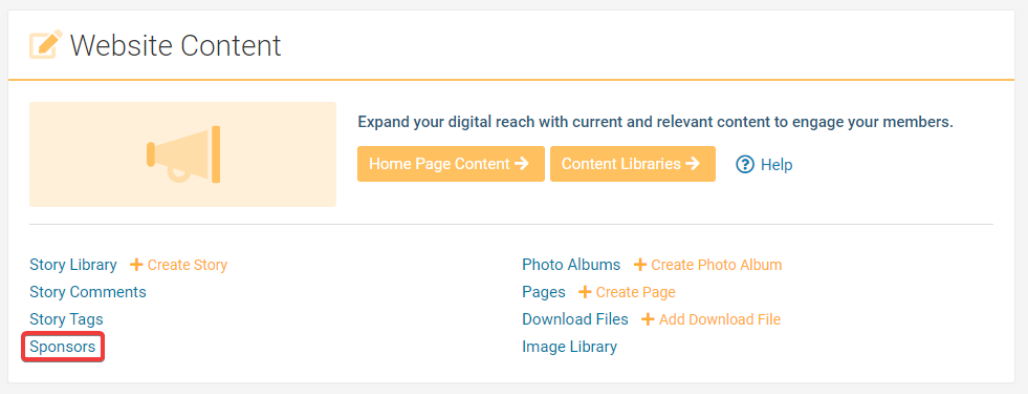

Omar S. - 2021-03-10 - Website Sponsors

At times you may want to hide a sponsor on custom pages, site pages, event pages and built-in pages. To learn how to do this please follow the steps below:

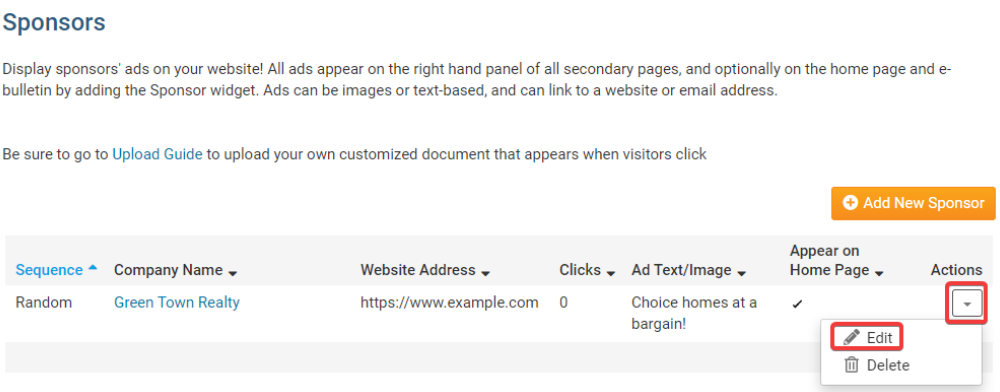

1. Login to your ClubRunner website. Click on the **Member Login** link found in the top right corner of the homepage. Enter your login information and login.

2. Now back on the homepage click on the **Member Area** link found in the top right corner.

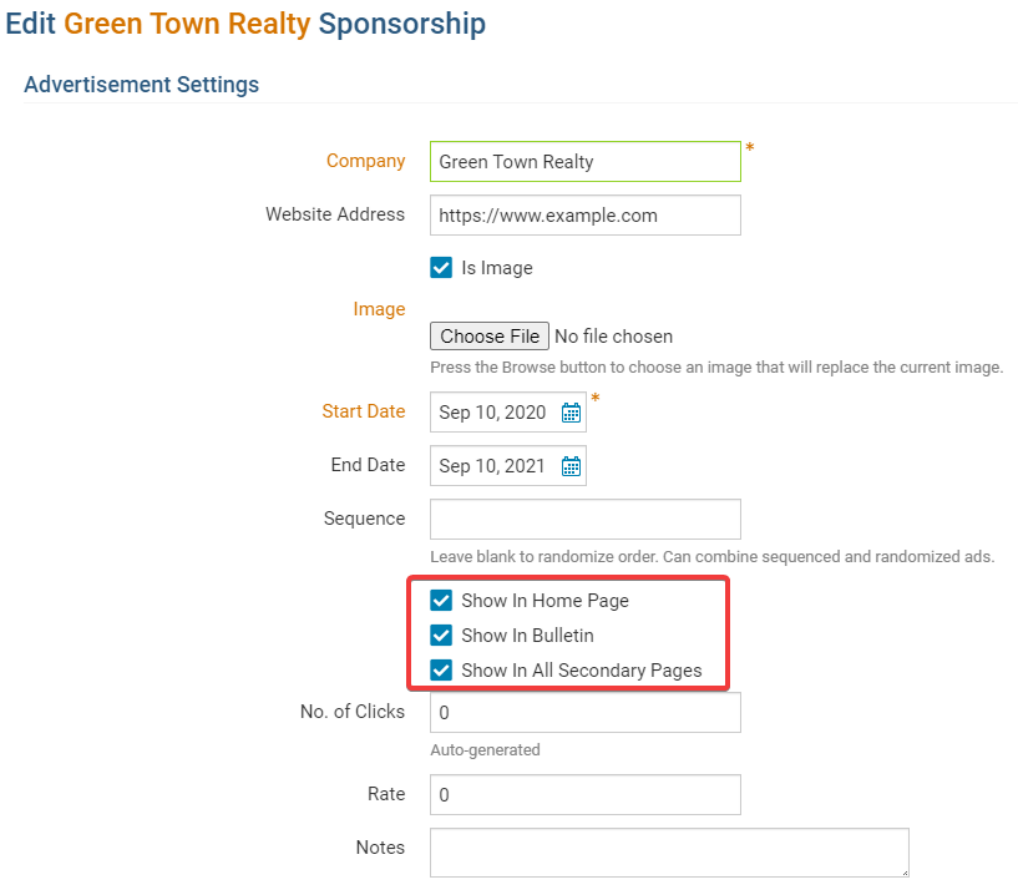

3. On the Administration page, scroll to find the **Website Content** section and click on the **Sponsors** link

4. Select **Edit** link located in the drop down menu under the **Actions** heading on the right side of the sponsor you wish to edit.

5. **Uncheck** the **Show In Home Page, Show In Bulletin, or Show In All Secondary Pages** checkbox so the sponsor would not appear on the respective pages. Once done click on the **Save** button in the bottom right corner.

6. Once you complete these steps if you went to the Club's custom, site or built-in pages you should no longer see the sponsor.
