How do I create a form in Google Docs and post it on my webpage?

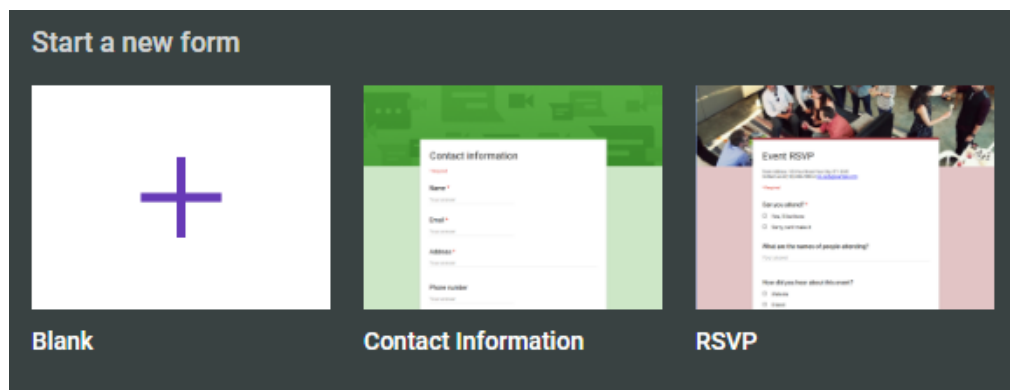

Michael C. - 2023-03-06 - Website Content

A Google Docs form is a document that acts as a flexible survey or form generator, allowing you to collect information and answers on a variety of topics. These custom surveys can be embedded within ClubRunner pages using the steps below.

Note

Google periodically re-engineers the Google Docs interface. The information below is current as of April 2018.

1. Please go to Google Docs by clicking on this link: <https://docs.google.com/forms>
2. Sign-in using your Google/Gmail login. If you do not have one, you may need to create a new account.
3. Near the top, select a form to use as a template.

4. This opens a new Form document, which you can customize. Please fill in all of the details you need to create your form.
5. Once you are done, click the **Send** button on the top right.

6. A page will pop-up. On the "Send via" area, please click the **< >**. This will allow you to generate Embed Code. You will need to adjust the **Width** and **Height** fields. Please set the width to 600 px and the height to 700 px. After you complete all of steps in this article, if the size of the form does not look right, please change the size of the form to meet your needs. Once done, please click **COPY**. This will copy the Embed Code, so you can paste it into ClubRunner.

The screenshot shows a purple header bar with the text "Send form" and a close icon (X). Below the header, there is a checkbox labeled "Collect email addresses". Underneath, the "Send via" section includes icons for email, a link, and a code icon (highlighted with a red box). To the right of these are social media icons for Google+, Facebook, and Twitter. The main content area is titled "Embed HTML" and contains an `<iframe src="https://docs.google.com/forms/d/e/1FAIpQLSduGHHXc1GE5Z"` code snippet. Below the code, there are input fields for "Width" (set to 700 px) and "Height" (set to 520 px). At the bottom right, there are two buttons: "CANCEL" and "COPY" (highlighted with a red box).

7. Now, return to your ClubRunner site and access the online editor in the story/widget where you wish to place the form.
