## How do I create an event in Event Planner?

Omar S. - 2025-05-29 - [Events & Calendar](#)

With the **Event Planner** feature, you can plan out and schedule events for your club. You can invite members and non-members to attend, arrange online payment, and much more. Events can be created by event chairs, club executives, and site administrators.

### Navigation:

[Accessing the Events List](#)

[Set the Event Details](#)

[Event Services & Registration Options](#)

[Update & Review Payment Settings](#)

### Accessing the Events List

1. To access the **Event Planner** feature, you must go to your club homepage and log in. Then, click **Member Area** near the top right.
2. Along the top of the screen you will see several grey tabs. Click on the **Events** tab.
3. Click **Event Planner** on the blue menu bar.
4. You are now on the **Events** page. To start setting up your new event, click on the **Create a New Event** button on the right side of the screen.

### Set the Event Details

1. You are now on the **Create New Event** screen, where you can write a description of your event and set up the time and place of the event. First, enter a name for your event in the **Event Name** field. You also have the option to set the **Status** of event as **Active** or as a **Draft**. An Active event will allow registrations if registrations have been configured. A Draft event will not allow registrations, even if registrations have been configured.

## Create New Event

### Create Event

Event Name: Holiday Party 2020

Event Code:

Status: ☒ Active ☐ Draft

Event Type: General

Start Date & Time: Dec 21, 2020 04:00 PM Tip: Type 'A' or 'P' to switch AM/PM.

End Date & Time: Dec 21, 2020 08:30 PM Tip: Type 'A' or 'P' to switch AM/PM. Leave blank if not applicable

2. Now, if you wish you can enter a unique **Event Code**. This makes it much easier for you to track member payments for events from within your Sage or Bambora merchant account. You can assign your own Event Code when creating a new event, up to 10 characters long, or add one to an existing event by editing the event details. All payments transactions for that event will have the same code, appended by the unique registration ID, making it much easier to determine who has paid for what.

Event Name: Holiday Party 2020

Event Code: Holiday20

Status: ☒ Active ☐ Draft

Event Type: General

Start Date & Time: Dec 21, 2020 04:00 PM Tip: Type 'A' or 'P' to switch AM/PM.

End Date & Time: Dec 21, 2020 08:30 PM Tip: Type 'A' or 'P' to switch AM/PM. Leave blank if not applicable

3. Next you can select the **Event Type**. The event type lets you pick which type of event you are creating.

Event Name: Holiday Party 2020

Event Code: Holiday20

Status: ☒ Active ☐ Draft

Event Type: General

Start Date & Time: Dec 21, 2020 04:00 PM Tip: Type 'A' or 'P' to switch AM/PM.

End Date & Time: Dec 21, 2020 08:30 PM Tip: Type 'A' or 'P' to switch AM/PM. Leave blank if not applicable

Description:

10. Next, you can click on various fields that determine where the event will be displayed.

- **Show Event in home page:** This field gives the event chair the option to display the event on the homepage. Please note however, the event widget **must** be on the homepage for this option to display the event. Selecting **No** will hide the event from the home page.
- **Show Event in Calendar:** This field gives you the option to display the event on the mini calendar on the homepage and built-in Events Calendar page in the Calendar view. The mini calendar widget must be on the homepage for this option to display the event. Selecting **No** will hide the event from the mini calendar and from the built-in Events Calendar page in the Calendar view.
- **Show Event in Events List:** This field gives you the option to display the event on the built-in Events Calendar page in the List view. Selecting **No** will hide the event from the List view of the Events Calendar built-in page.
- **Display Social Media Share Bar:** This gives you the option to add a **share bar** wherever the event is displayed. With this toolbar, members can share details of the event through social media sites such as Facebook and Twitter.
- **Show Event in Bulletin:** Click **Yes** to display the event on your club's weekly bulletin, provided you have included the events widget in the bulletin. Select **No** to hide the event from the Bulletin.
- **Show Event in District Calendar:** Click **Yes** to display the event on the district calendar. Select **No** to hide the event.
- **Show Map:** Click **Yes** to display the event's location in a Google Map, on the event's registration page. Select **No** to hide the embedded map from appearing on the event's registration page.

11. Finally, click **Save** at the bottom of the screen. Or, if you wish to discard the event details, click **Cancel**.

## Event Services & Registration Options

1. Once you have saved the event, you are taken to the **Event Services** screen. Here, you can review and edit the details of your event, as well as set up registration, payment and invitation details. You can use the three buttons next to your event details to add or change aspects of the event.

- **Edit Details:** This link will take the event chair to the details of the event from where they will be able to edit the date and time, select a new event chair, etc.
- **Edit Links:** This link will allow the event chair to add links for the event. The added links will be displayed on the homepage event right under the image.
- **Edit Download Files:** This link will allow the event chair to add files that registering members may want/need before registering for an event. The added download files will be displayed on the

homepage event right under the related links.
