How do I edit Site Page content?

Michael C. - 2021-01-28 - Website Content

Through the ClubRunner Website designer tool, you can create and customize your own Site Pages to populate your club or district page. You can access and edit existing pages via your **Site Page Library**.

- 1. To access the Site Page Library, login to the website's home page.
- 2. Click on the **Website** grey tab near the top.
- 3. On the blue menu bar, click Website Content.
- 4. Click on the Pages icon on the left.
- 5. Click on Site Page Library.

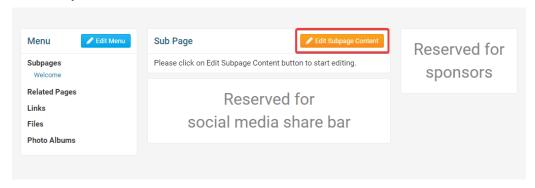

Site Page Library

This brings you to the Site Page Library, a complete list of currently created site pages. Simply select the site page you wish to edit, and click the Edit link under the Actions heading.

8. In the provided editing window, you may compose, paste or add content as desired. You can use the buttons in the tool bar to add images, webpage links, or embed videos and other media.

Edit Welcome

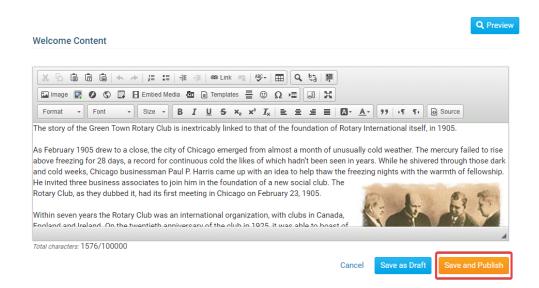

Once you have entered content, use the **Preview** button to see how it will be formatted on the live page in your chosen template structure.

Edit Welcome

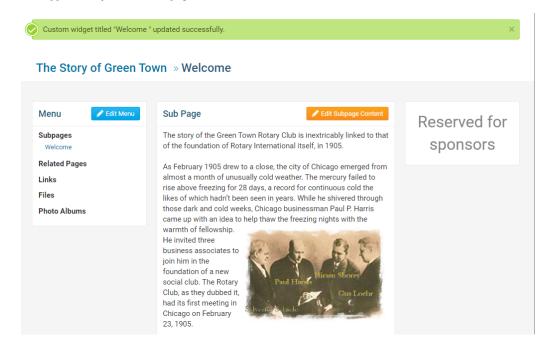

10. When you are satisfied with the site page content, click **Save and Publish**. If you want to come back to it later, click **Save as Draft**. If you wish to discard the content, click **Cancel**.

Edit Welcome

11. You are now returned to the site page menu, where you are presented with a preview of the content as it now appears on your new site page.
