

## How do I edit the Site Page menu?

Michael C. - 2021-01-28 - [Website Content](#)

Your site pages exist as subpages within your larger club or district homepage. As such, they can make use of their own internal navigation and page structure, such as a link menu. To create a site page menu you must access your **Site Page Library**.

1. To access the **Site Page Library**, log in to your ClubRunner home page.
2. Click on the **Website** tab.
3. Click on the **Website Content** link.
4. Click **Pages** on the left.
5. Click on **Site Page Library**.
6. This brings you to the **Site Page Library**, a complete list of currently created site pages. Simply select the site page you wish to edit, and click the **Edit** link under the **Actions** heading.

The story of the Green Town Rotary Club is inextricably linked to that of the foundation of Rotary International itself, in 1905.

As February 1905 drew to a close, the city of Chicago emerged from almost a month of unusually cold weather. The mercury failed to rise above freezing for 28 days, a record for continuous cold the likes of which hadn't been seen in years. While he shivered through those dark and cold weeks, Chicago businessman Paul P. Harris came up with an idea to help thaw the freezing nights with the warmth of fellowship. He invited three business associates to join him in the foundation of a new social club.

8. This launches the **Manage Links** page, where you can add new links to your site page, as well as organize existing links. Links are organized into groups, such as **Subpages**, **Related Pages**, **Files** and **Photo Albums**.

### Manage Links for The Story of Green Town

Drag and drop links to change their sequence and groupings.

Add New GroupAdd New Link

Files			Add Link
Photo Albums			Add Link

9. Links are organized into groups, such as **Subpages**, **Related Pages**, **Files** and **Photo Albums**. You may re-order these groups by clicking on them and dragging them to the desired location.
10. Groups exist for the sake of convenience, to help you manage your menu links. You may create a new group by clicking the **Add New Group** button. You can remove a group by clicking **Delete** in the **Actions** column to the right of the group. If you don't intend to use a group, you may wish to remove it for purposes of clarity.

## Manage Links for The Story of Green Town

Drag and drop links to change their sequence and groupings.

Add New Group

12. Regardless of which option you choose, you are taken to the **Add Link to Links Widget** interface. Here, you define the nature of the new sitepage menu link. First, you are asked whether you want to display the link as **Text** or an **Image**. Click the appropriate button. If you select image, the link will appear in the menu as a clickable image. If you choose to display the link as text, you will be asked to enter to that text in the **Link Text** field. If you choose an **Image**, you will be prompted to upload an image file.

 Download Files are always public, exercise caution when adding files with private information.

13. You are now asked to define the **Link Type**.

- **Sub Page:** These are distinct site pages with their own menu structure. You will be asked to name the sub page.
- **Link:** This is an external link to an existing page or email address. A text field will appear, where you can enter the URL or email.
- **Download File:** This links directly to a file for download. You will be prompted to upload a file with a maximum size of 10 MB.
- **Photo Album:** This brings the visitor to a club photo album. You asked to name the album, and will be taken to a photo upload page once the link is saved.
- **Related Page:** When you choose this option, you are asked to enter the name of the related page. Once the link is saved you are asked to add the contents of this page. You may also set an owner for a related page. The owner can be any member. They will be able to edit and change this page even if their access level would normally be insufficient for website designer access.

15. You can choose to associate the link with one of the existing groups, or create a new one, using the drop down menu that appears. Then, choose whether you want to place the link at the top or bottom of the group by clicking the appropriate option. If you wish the link to open in a new window, click **Open Link in New Window**.

**Note:** The **Link Type** and **Group** do not have to match. For example, you could place a **Download File**

in the **Photo Album** group. The Group types are simply a suggested framework.
