

How do I embed a Twitter timeline into a custom widget?

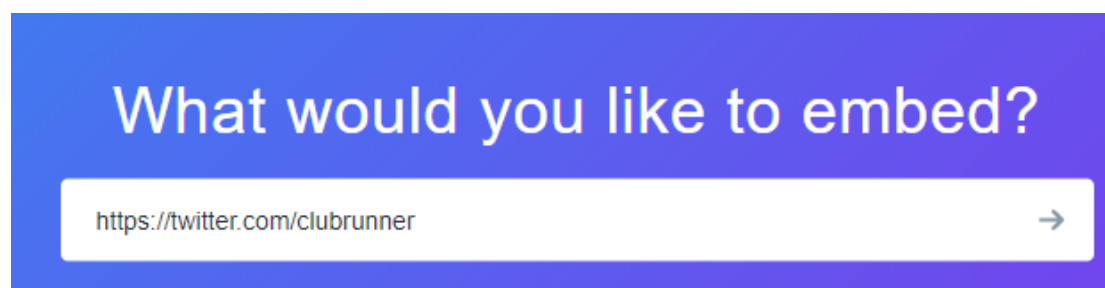

Omar S. - 2022-11-14 - [Website Widgets](#)

To add a live Twitter feed to your website, you will need to install the third party tool [Twitter Publish](#). Twitter Publish provides users with website-friendly embed code, so users can easily implement it using the editor.

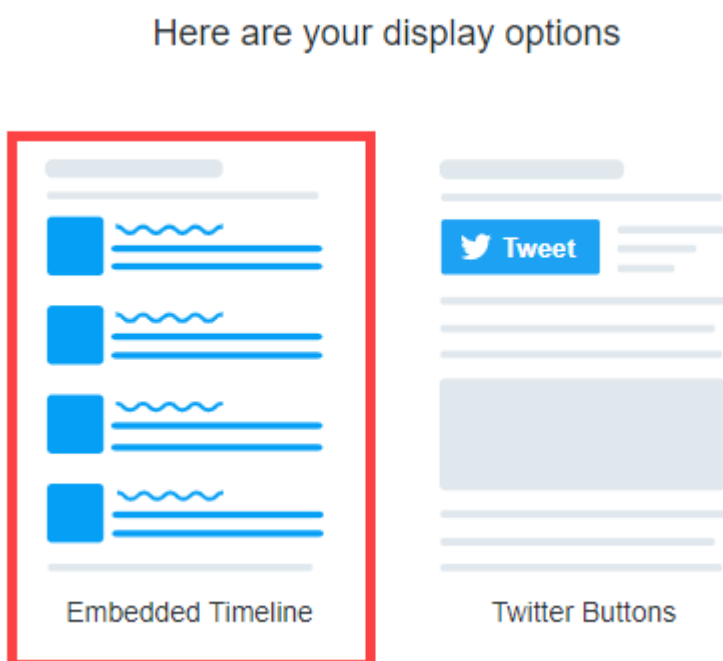

Note: Twitter is a third-party application, ClubRunner provides no support for Twitter. Users are advised to check the application's privacy policy and terms and conditions before signing up.

To begin, you will need to visit Twitter Publish by [clicking on this link](#), or you can copy and paste this link directly to your internet browser: <https://publish.twitter.com/>

1. In the textbox, enter your Club's Twitter URL or website address.

A screenshot of the Twitter Publish website. It features a large blue header with the text "What would you like to embed?". Below this is a white input field containing the URL "https://twitter.com/clubrunner". To the right of the input field is a blue button with a white right-pointing arrow.

2. Below, choose the style and type of display option for the Twitter embed code. For this guide, we will choose the **Embedded Timeline** to display the Twitter posts and timeline.

3. After choosing the style of embed option type, click the blue **Copy Code** button to copy the HTML embed

code.

That's all we need, unless you'd like to [set customization options](#).

By embedding Twitter content in your website or app, you are agreeing to the [Developer Agreement](#) and [Developer Policy](#).

```
<a class="twitter-timeline" href="https://twitter.com/ClubRunner?ref_src=twsrc%5Etfw">Tweets by ClubRunner
```

Nov 26, 2020

4. On the Twitter Publish website, you will receive a confirmation the embed code has been copied to your clipboard.

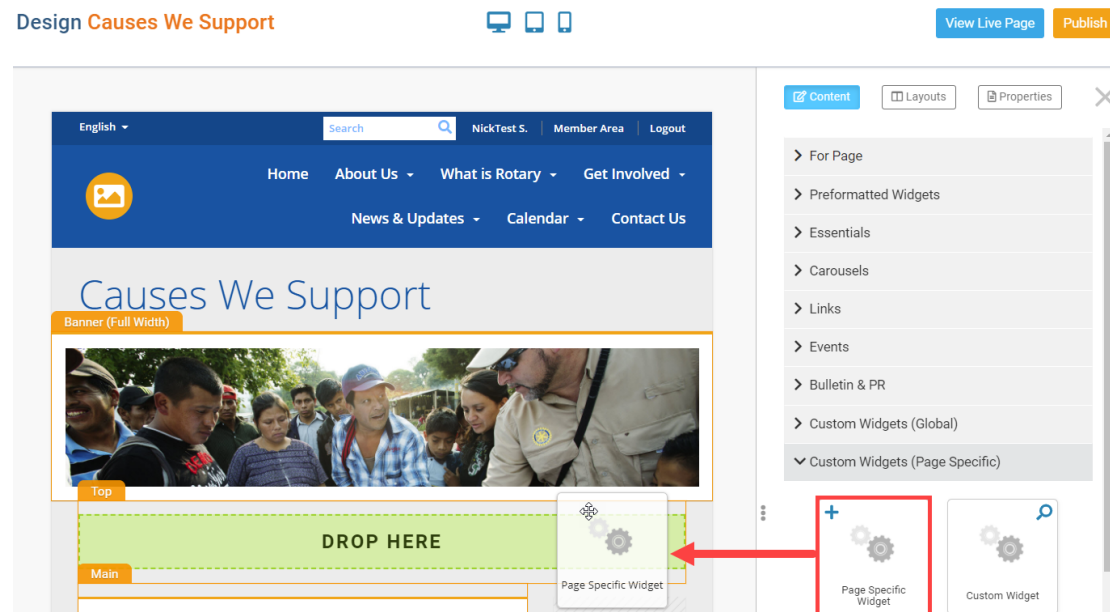

Copied!

Paste this code directly into the HTML portion of your site, and you'll be good to go. Need more info? Check out our [developer docs](#).

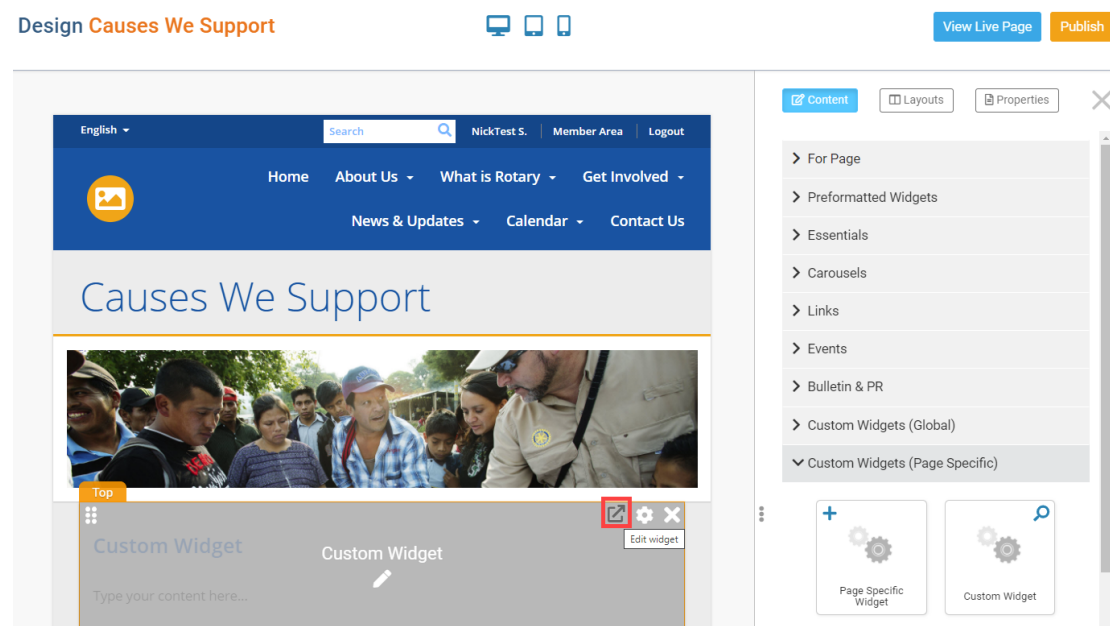

To paste the Twitter embed code in ClubRunner:

5. Navigate to your website then click **Member Login** at the top right.
6. After logging in click the **Member Area** link in the top right of the organization home page.
7. Inside the member area click **Website** in the top blue bar.
8. Next, choose where to add the Twitter Embed Code and Timeline.
 - **For the Club Home Page:** click **Home Page Designer** in the grey bar below.
 - **For a new Custom page:** in the grey bar below click, **Create New Page** in the grey bar below. Then, in the Select Template page, select a template, and click the orange **Next** button in the top right of the Template library.
 - **For an existing Custom page:** click **Custom Page Library** in the grey bar below, then while viewing the library in 'Grid' view, hover over the existing custom page and click **Open** to edit the page.
9. Once the designer for the page is selected in step 4, open the **Custom Widget (Global)** or **Custom Widget (Page Specific)** widget grouping in the Content section of the designer.

10. **Click-and-drag** a Custom Widget onto the page (the icon with the "plus" sign), above or below any other widget on the page. You will see a green **Drop Here** box, denoting where the widget will be entered onto the page.

11. With the widget now on webpage, hover over the widget and click the **Out-bound Arrow** icon in the top-right of the widget.

Note: To the right of the Out-bound Arrow icon you will find two more icons you can click to manage the widget:

- The **Gear** icon - Open the **Widget Properties** and display options dialog.
- The **X** icon - **Remove** the widget from the page. A copy of the widget grouping it was used from.

12. On the Edit Custom Widget page, enter a new title for the widget. This title & widget will appear in the Custom Widget group with this title.

13. Scroll down to the Custom Widget Content textbox and click the **Source** editor tool.

Custom Widget Content

The screenshot shows the top toolbar of a WYSIWYG editor. The 'Source' button, represented by a document icon with a code symbol, is highlighted with a red rectangular box. Other visible buttons include Cut, Copy, Paste, Undo, Redo, Bulleted List, Numbered List, Indent, Outdent, Link, Unlink, Text Color, Background Color, Find, Replace, and Print. Below the toolbar is a text area with the placeholder text 'Type your content here...'. At the bottom, a status bar shows 'body div' and 'Total characters: 37/100000'.

14. In the source editor mode for the Custom Widget Content, **Paste** the embed code, copied from **Step 3**.

Custom Widget Content

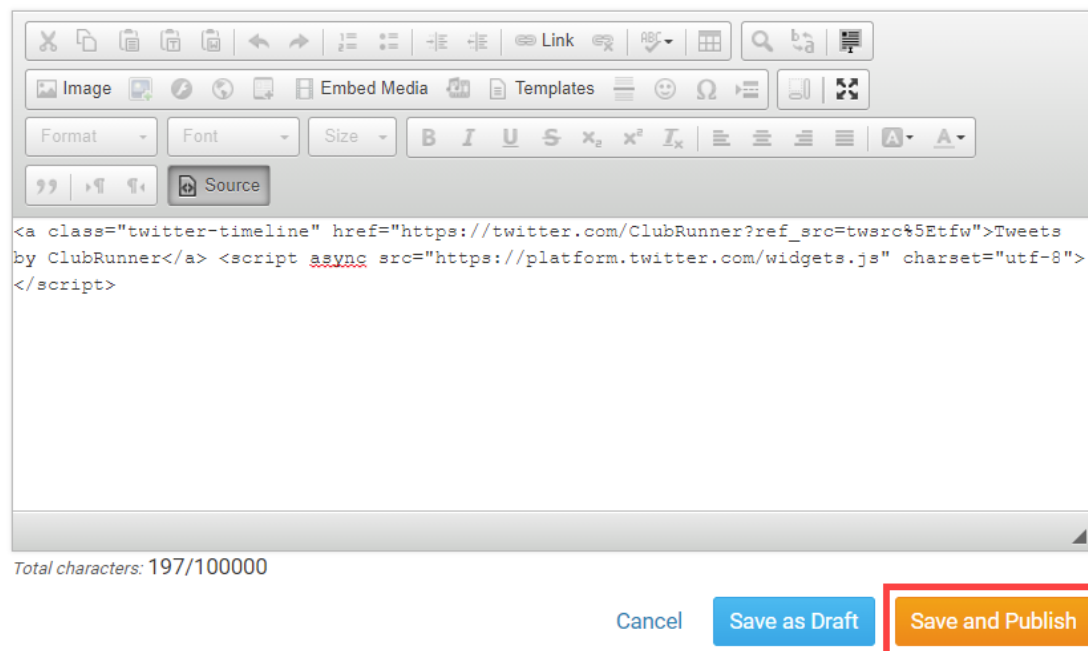

The image shows a web editor interface. At the top is a toolbar with icons for undo, redo, bold, italic, underline, link, unlink, list, and other formatting options. Below the toolbar is a row of buttons for 'Image', 'Embed Media', and 'Templates'. Further down are dropdown menus for 'Format', 'Font', and 'Size', followed by buttons for bold (B), italic (I), underline (U), strikethrough (x), subscript (x₂), superscript (x²), text color (I_x), background color, and text alignment. A 'Source' button is also present. Below the toolbar, a red box highlights a snippet of HTML code:

```
<a class="twitter-timeline" href="https://twitter.com/ClubRunner?ref_src=twsrc%5Etfw">Tweets by ClubRunner</a> <script async src="https://platform.twitter.com/widgets.js" charset="utf-8"></script>
```

 At the bottom of the editor, a status bar displays 'Total characters: 197/100000'.

15. Once complete, click the orange **Save and Publish** button in the bottom right of the page.

Custom Widget Content

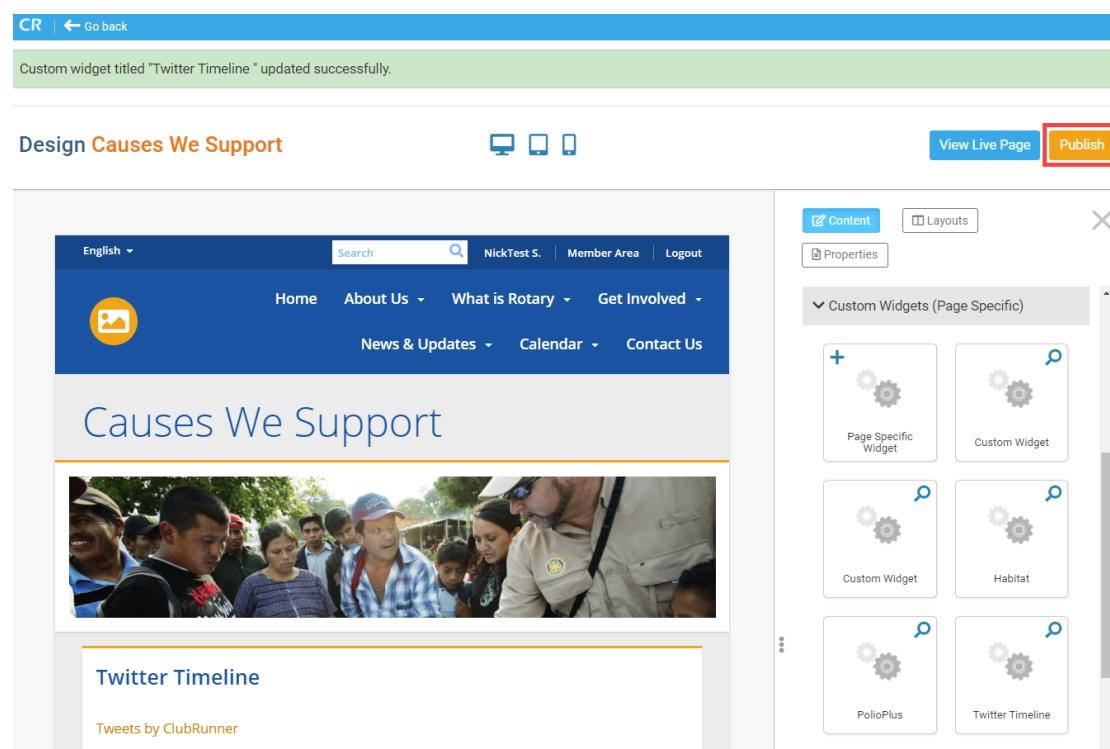

The screenshot shows a rich text editor interface for customizing a widget. The top toolbar includes icons for undo, redo, bold, italic, underline, link, unlink, bulleted list, numbered list, decrease indent, increase indent, text color, background color, and a search icon. Below the toolbar are tabs for 'Image', 'Embed Media', and 'Templates'. A 'Format' dropdown is set to 'Text', and a 'Font' dropdown is set to 'Arial'. A 'Size' dropdown is set to '12pt'. The main text area contains the following HTML code:

```
<a class="twitter-timeline" href="https://twitter.com/ClubRunner?ref_src=twsrc%5Etfw">Tweets by ClubRunner</a> <script async src="https://platform.twitter.com/widgets.js" charset="utf-8"></script>
```

At the bottom left, it says 'Total characters: 197/100000'. At the bottom right, there are three buttons: 'Cancel', 'Save as Draft', and 'Save and Publish' (which is highlighted with a red border).

16. After returning to the Page Designer, click the orange **Publish** button at the top-right of the designer to publish the changes.

The screenshot shows the Page Designer interface. At the top, there's a blue header with 'CR' and a 'Go back' link. Below it, a green banner says 'Custom widget titled "Twitter Timeline " updated successfully.' The main content area is titled 'Design Causes We Support' and shows a preview of the live page. The live page has a blue header with a search bar and links for 'NickTest S.', 'Member Area', and 'Logout'. The main content area features a large photo of a group of people and a 'Twitter Timeline' widget. On the right side of the Page Designer, there's a sidebar with tabs for 'Content', 'Layouts', and 'Properties'. Under the 'Content' tab, there's a section for 'Custom Widgets (Page Specific)' with a grid of widget thumbnails: 'Page Specific Widget', 'Custom Widget', 'Habitat', 'PolioPlus', and 'Twitter Timeline'. The 'Twitter Timeline' widget is highlighted with a red border. At the top right of the Page Designer, there are two buttons: 'View Live Page' and 'Publish' (which is highlighted with a red border).

17. To view the embedded code on the live page, click the blue **View Live Page** button in the top-right of the Page Designer.
