

How do I request member updates? (District)

Michael C. - 2021-02-08 - Membership Management

Through your District homepage, you have the ability to request profile updates from your members. This should be done fairly regularly to ensure your contact details and member information remain current.

1. To request an update from a member, go to your District webpage and click on the **Login** link at the top right of the page. Then, enter your login details on the page that appears.
2. You are now logged in. To access the District Administration page, click on **Member Area** on the top right.
3. You are now on the **District Administration** page. Click the **Memberships** tab just under the header.
4. Next, click on the **Request Member Updates** link.
5. You are now presented with a list of active members for your default club. Use the **Select Club** drop down menu if you wish to view the membership of a different club. Use the **Select Members Per Page** drop down to set how many members you wish to view at once.

Request Member Updates

This feature allows you to review how recently your members' profiles were updated, and by whom. You can send out an email to each member displaying their current profile details and request an update if required (a link to their profile is in the email). You can also customize the email message sent to your members. [Click here to modify the message.](#)
