

How do I view all members with a given district access level?

Michael C. - 2021-02-08 - District Organization

Member access rights define how much control a given member has over your district site. You can view all members with a given access level through the **Member Access Rights** feature.

1. Go to your district webpage and click on the **Login** link at the top right of the page. Then, enter your login details on the page that appears.
2. You are now logged in. To access the District Administration page, click on **Member Area** on the top right.
3. You are now on the **District Administration** page. Click on the **Membership** tab.
4. Now, click on the **Member Access Rights** link.
5. You must now select an individual member. The identity of the member does not matter, as any member will allow you to view the complete list of access rights. First, use the fields in **Step 1** to choose the member according to their club or name.
