

How to track website statistics with Google Analytics

Omar S. - 2023-09-27 - [Website Settings](#)

ClubRunner has built-in Google Analytics tracking to help you gain insight into your website traffic. All you need to do is signup with a free Google account and it will allow you access to advanced data about your ClubRunner website. We do recommend setting up a Google account just for your club so that management of the account can be passed on easily. As a note you can add others to be able to view the analytics

1. You will need to go to www.google.com/analytics and click on the **Sign into Analytics** link.
2. After logging in you'll be presented with the following screen, and you will want to click on **Start Measuring**.

3. This will lead you to the setup page for a new account, where you'll need to enter a name for your Google Analytics account (we recommend using your Club's name), and select some Account Data Sharing Settings. None of these Data Sharing Settings are required and can be changed any time in the future.

Account Data Sharing Settings ⓘ
Data that you collect, process and store using Google Analytics ("Google Analytics data") is secure and kept confidential. This data is used to [maintain](#) and [protect](#) the Google Analytics service, to perform system critical operations and in rare exceptions for legal reasons as described in our [privacy policy](#).

The data sharing options give you more control over sharing your Google Analytics data. [Learn more](#).

- ☒ **Google products & services** RECOMMENDED
Share your Google Analytics data with Google to help improve Google's products and services. Turning on this setting enables Google Analytics to provide best-in-class Intelligence and Insights services, maintain critical Spam Detection services that benefit all linked products and users and offer [Enhanced Demographics](#) and [Interests reporting](#) when [Google signals](#) is enabled. If you disable this option, data can still flow to other Google products linked to your property. Visit the product linking section in each property to view or change your settings.
- ☒ **Benchmarking** RECOMMENDED
Contribute anonymous data to an aggregate data set to enable features like benchmarking and publications that can help you understand data trends. All identifiable information about your website is removed and combined with other anonymous data before it's shared with others. [Show Example](#)
- ☒ **Technical support** RECOMMENDED
Let Google technical support representatives access your Google Analytics data and account when necessary to provide service and find solutions to technical issues.
- ☒ **Account specialists** RECOMMENDED
Give Google marketing specialists and your Google sales specialists access to your Google Analytics data and account so that they can find ways to improve your configuration and analysis, and share optimisation tips with you. If you don't have dedicated sales specialists, give this access to authorised Google representatives.

[Learn how Google Analytics safeguards your data](#).

You have access to 98 accounts. The maximum is 100.

7. This will prompt you to Accept the Google Analytics Terms of Service Agreement. Make sure to select the correct country, read the terms of service agreement and then click **I Accept**.

Google Analytics Terms of Service Agreement

To use Google Analytics you must first accept the terms of service agreement for your country / region of residence.

United States

"Customer Data" or "Google Analytics Data" means the data you collect, process or store using the Service concerning the characteristics and activities of Visitors.

"Documentation" means any accompanying documentation made available to You by Google for use with the Processing Software, including any documentation available online.

"GATC" means the Google Analytics Tracking Code, which is installed on a Property for the purpose of collecting Customer Data, together with any fixes, updates and upgrades provided to You.

"Hit" means the base unit that the Google Analytics system processes. A Hit may be a call to the Google Analytics system by various libraries, including, Javascript (e.g., analytics.js), Silverlight,

Measuring: ☒ Page views ☒ Scrolls ☒ Outbound clicks [+ 4 more](#)

[Create stream](#)

10. You will then be prompted with your new web stream details. Copy or note down the **Measurement ID**.

Stream details

STREAM NAME	STREAM URL	STREAM ID	MEASUREMENT ID
ClubRunner Website	https://www.portal.clubrunner.ca/XXXX	[REDACTED]	[REDACTED]

11. Navigate to your ClubRunner website.

12. If you are not yet logged in, click on **Member Login**.

13. Click on the **Member Area** link.

14. Click on the **Website** tab, and then click on **Website Settings**.

15. Under the Analytics Group, click on **Add Google Analytics**.

16. On this page, paste the **Measurement ID** that we copied from Step 10, then click **Save**.

Add/Edit Google Analytics Tracking Code

Google Analytics

Google Analytics lets you track visitors and obtain other statistics regarding your website traffic.

Visit the [Google Analytics Sign Up](#) page to create an account and obtain your Tracking ID.

If you already have your Tracking ID, please enter it below.

(Example: G-XXXXXXXXXX).

You will need to publish your website in order for the tracking to take effect.

Login to your [Google Analytics account](#) to view your website statistics. Please note: It may take up to 48 hours after publishing your website for the statistics to display in your account.

[Cancel](#)

[Save](#)

17. Once your Measurement ID is entered into ClubRunner, the data will start to become available on Google's Analytics website. You can return to <http://www.google.com/analytics> at any time to see your Club's statistics.

Note

It can take 24 hours before data starts appearing after setting up your Club's tracking information.

For more information on how to use your Google Analytics account, kindly visit [Google Analytics Help Center](#).
