**Welcome to ClubRunner**
As a new subscriber to the ClubRunner Network, we want you to get the most out of your site. To help you out, we have created resources to help you setup, launch and maintain your ClubRunner site successfully.

This Getting Started guide is intended to serve as a checklist of all the steps you should follow to get started. And, this guide can also be used as a reference if you must pass on your duties as site administrator to another member. You can also **download a PDF** version of this guide.
