Reports - By Questionnaire

By Questionnaire: The Questionnaire report is a report based on completed questionnaire. Within this section the event organizer can pull up a complete list of attendees that have completed the questionnaire form. The report can be filtered again by the status of the attendees; when the paid is selected and the **Generate** button is clicked the report will only show attendees that have paid and all the services ordered. When the unpaid report is generated, a list of attendees will be generated but the list will show attendee order that still require payment. The report can also be filter by the questions answered. The results of that report are based on the number of questions entered by the event organizer.

Export: This report can be exported out to PDF, CSV, Excel 97-2003, Rich Text Format, TIFF, & Web Archive.
