A Deep Dive into ClubRunner Nova

Hosted by **Halle** | Co-host: **Zach**

We're excited to feature Nova, the modernized version of ClubRunner - now in open beta! Key updates in Nova include:

- Revamped Navigation and Look: A fresh, intuitive interface that’s easy to use across devices.
- Organized Member Data: We’ve combined contacts and member data into one single source, eliminating siloed records and making data management simpler.
- Updated Email Message Center: A more efficient way to manage your recipient lists, including copying individuals and adding exclusion lists plus more.
- Modernized Financials: Get an instant overview of all transactions on a member or contact profile, manage invoice types and create ad-hoc invoices.
- Improved Reporting: Access dynamic reports that offer more than just membership data.

Join us for a deep dive into Nova's powerful features and see it in action. We will be:

- Showcasing Nova's powerful features
- Highlighting the latest updates
- Sharing our rollout plan and what to expect
