

## Website Designer - Settings Overview

Omar S. - 2023-08-01 - Website Settings

### Getting Started:

This section allows you to modify settings for your website and bulletins such as Club Logo, Mailing Address, Venue Map, etc. You can also integrate your Google Analytics account to help you track your Website's traffic. It also provides you with the option to upload your own CSS files if you wish to override your current theme. Please follow the steps below to learn how to access Website Settings:

1. To start, please login to ClubRunner and go into the **Member Area**.
2. On the blue menu bar near the top, click **Website**.
3. On the grey menu bar below, click **Website Settings**.
4. You will now see several options, please click on one of the following links to learn more about each option:

### Legend:

[Add Mailing Address](#)

[Upload Venue Map](#)

[Default Email Templates](#)

[Upload Club Logo](#)

[Upload Menu Home Icon](#)

[Upload Favicon](#)

[Upload Apple Touch Icon](#)

[Website Contact](#)

[Edit Meta Tags](#)

[Upload CSS](#)

[Search](#)

[Add Google Analytics](#)

## General Settings - Add Mailing Address

1. To add or change the mailing address, click the **Add Mailing Address** link in the General section.

## General

### Add Mailing Address

The address information will be displayed at the bottom of your bulletin when it is sent out.

### Upload Venue Map

Replace the Google map by uploading your own image or PDF of your meeting location.

### Default Email Templates

Set the default email template for yourself or the whole account.

1. Please fill out the address fields and click the **Save** button once done.

## Update Mailing Address

**Note:** The mailing address displays on bulletins. To remove the address from the bulletins, please click the Clear and Exit button.

### Mailing Address

Address 1:	<input type="text" value="2060 Winston Park Dr"/>	*
Address 2:	<input type="text" value="Suite 400"/>	
Address 3:	<input type="text"/>	
City:	<input type="text" value="Oakville"/>	*
Country:	<input type="text" value="Canada"/>	*
Province/Territory:	<input type="text" value="Ontario"/>	
Postal Code:	<input type="text" value="L6H 5R7"/>	

[Cancel](#) [Clear And Exit](#) [Save](#)

The mailing address will then be displayed at the bottom of your organization's bulletins.

## General Settings - Upload Venue Map

Use this option to replace your Club's Google map location by uploading your own image or PDF of your meeting location.

To upload a new image or PDF file follow these steps:

1. Click the **Upload Venue Map** link from the General section.

## General

### Add Mailing Address

The address information will be displayed at the bottom of your bulletin when it is sent out.

### Upload Venue Map

Replace the Google map by uploading your own image or PDF of your meeting location.

### Default Email Templates

Set the default email template for yourself or the whole account.

1. Click the **Choose File (or Browse)** button to browse to the destination folder where the image or PDF file is located:

## Update Meeting Map

### Venue Map Settings

No Venue Map uploaded. If the venue map on the home page is incorrect, you can replace it by uploading your own map as an image.

Step 1: Click **Browse** and locate the appropriate file.

No file chosen

Step 2: Press **Save** to upload the new map to the website.

[Cancel](#)

1. Double-click the image to select it, then click the **Save** button for your changes to take effect.

## Update Meeting Map

### Venue Map Settings

No Venue Map uploaded. If the venue map on the home page is incorrect, you can replace it by uploading your own map as an image.

Step 1: Click **Browse** and locate the appropriate file.

No file chosen

Step 2: Press **Save** to upload the new map to the website.

[Cancel](#)

To upload a new image repeat Steps 1 - 3.

If you wish to remove the image or PDF file, simply select the **Remove existing map** check-box and click the **Save** button.

### Venue Map Settings

Following file is being used for Meeting Venue Map

If the venue map on the home page is incorrect, you can replace it by uploading your own map as an image.

Step 1: Click **Browse** and locate the appropriate file.

No file chosen

Step 2: Press **Save** to upload the new map to the website.

Or

If you want to remove your uploaded file and use the default **Google** map instead, **check** the following checkbox

☒ Remove existing map.

VenueMap.png

[Cancel](#)

## General Settings - Default Email Templates

You can set your own default email template or all of the members with a default email template so all of the emails sent from ClubRunner would be similar. To learn how to do this please follow the steps below:

1. Click the **Default Email Templates** link from the General section.

## General

### Add Mailing Address

The address information will be displayed at the bottom of your bulletin when it is sent out.

### Upload Venue Map

Replace the Google map by uploading your own image or PDF of your meeting location.

### Default Email Templates

Set the default email template for yourself or the whole account.

1. From here you can set your own default email template or all users default email template by clicking on the **Select Group**, then selecting **Custom**.

## Modify Email Settings

### Default Email Templates

Your default email template: -- Select Group -- ▾

Default email template for all users: -- Select Group -- ▾

Save

1. Select the **Template** you created from the list.

## Modify Email Settings

### Default Email Templates

Your default email template: Custom ▾ New Member Template ▾ Remove

Default email template for all users: -- Select Group -- ▾

Save

1. Click **Save** to save the changes.

## Graphics - Upload Club Logo

The purpose of this feature is to allow the Club to define the current year Club logo.

Acceptable image types are GIF, JPG and PNG. To change an Existing Logo please follow these steps:

1. Click **Upload Club Logo** in the Graphics section.

## Graphics

### Upload Club Logo

This logo will display in various sections of your website and bulletin, such as the Meeting Information Widget.

### Upload Menu Home Icon

Next Gen Themes Only: This logo will display as the first item in your navigation menu and links to your home page.

### Upload Favicon

Display icon used in the browser address bar and bookmarks.

### Upload Apple Touch Icon

Display icon used by Apple devices for bookmarks or when your website is added to a home screen.

1. Click on the **Load from Image Library** link to select a new Club Logo from your Image Library.

# Update Club Logo

## Logo Settings

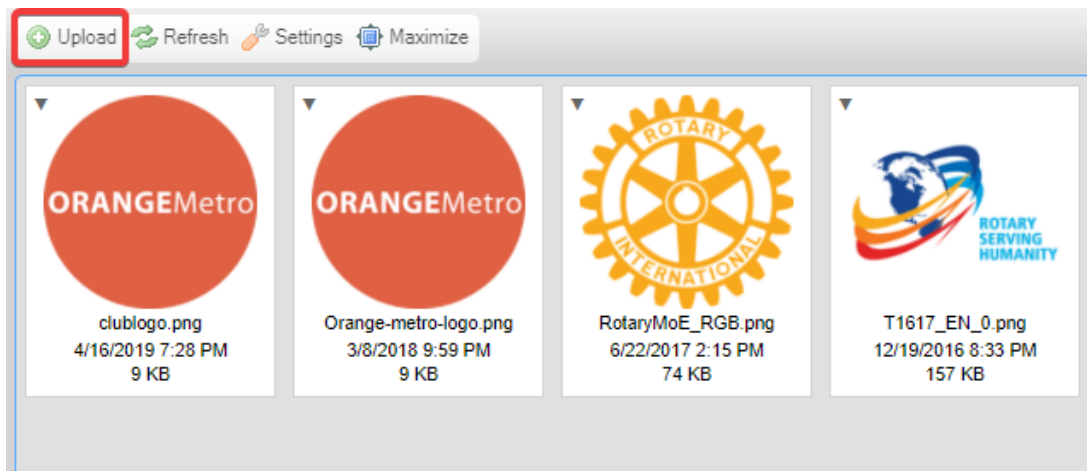

Existing Club Logo:

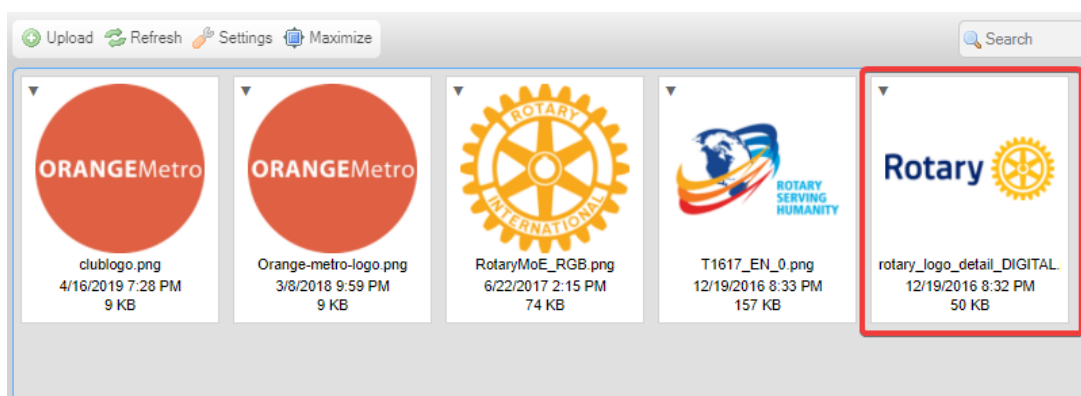

Change Logo: [Load from Image Library](#)

*Logo will be resized to 100 pixels wide. File types accepted are .GIF, .JPG and .PNG.*

1. You can select an existing image or upload a new one using the **Upload** button:

1. Double-click on the image you wish to select as the new Club logo and the new image is automatically saved.

## Upload Menu Home Icon

The Menu Home Icon is used in ClubRunner's newer themes. The icon is located near the top right of the website like this:

To add the Menu Home icon to the website, please see our [dedicated article here](#).

## Graphics

### Upload Club Logo

This logo will display in various sections of your website and bulletin, such as the Meeting Information Widget.

### Upload Menu Home Icon

Next Gen Themes Only: This logo will display as the first item in your navigation menu and links to your home page.

### Upload Favicon

Display icon used in the browser address bar and bookmarks.

### Upload Apple Touch Icon

Display icon used by Apple devices for bookmarks or when your website is added to a home screen.

## Graphics - Upload Favicon

The purpose of a Favicon is to display an icon associated with the website on the internet

browser's tab and when the site is bookmarked. At times it is also called the favorites icon. A Favicon is a small icon usually 16 x 16 pixels. By default the ClubRunner logo is assigned to all Websites. If you wish to update your Club's Favicon please follow these steps:

1. Under the Graphics area click **Upload Favicon**.

## Graphics

### Upload Club Logo

This logo will display in various sections of your website and bulletin, such as the Meeting Information Widget.

### Upload Menu Home Icon

Next Gen Themes Only: This logo will display as the first item in your navigation menu and links to your home page.

### Upload Favicon

Display icon used in the browser address bar and bookmarks.

### Upload Apple Touch Icon

Display icon used by Apple devices for bookmarks or when your website is added to a home screen.

1. Click the **Choose File (or Browse)** button to browse to the destination folder where the favicon image is located:

## Edit Portal Favicon

### Portal Favicon Settings

# Graphics - Upload Apple Touch Icon

Similar to favicons, the Apple-Touch Icon displays a web page icon associated with your website but only when browsing online with Apple mobile devices such as iPod Touch, iPad, and iPhone. ClubRunner's browser Apple-Touch icon is assigned to all Clubs by default. If you wish to update your Club's Apple-Touch icon please follow these steps:

1. Under the Graphics area click **Upload Apple Touch Icon**.

## Graphics

### Upload Club Logo

This logo will display in various sections of your website and bulletin, such as the Meeting Information Widget.

### Upload Menu Home Icon

Next Gen Themes Only: This logo will display as the first item in your navigation menu and links to your home page.

### Upload Favicon

Display icon used in the browser address bar and bookmarks.

### Upload Apple Touch Icon

Display icon used by Apple devices for bookmarks or when your website is added to a home screen.

1. Click the **Choose File (or browse)** button to browse to the destination folder where the Apple-Touch icon is located:

## Edit Apple-Touch Icon

### Apple-Touch Icon Settings

An Apple-Touch icon is 144 x 144 pixels png file used for a web page icon on the Apple iPhone, iPod Touch, and iPad. When someone bookmarks your web page or adds your web page to their home screen this icon is used. If this file is not found these Apple products will use the screen shot of the web page, which often looks like no more than a white square.

You do not currently have an Apple-Touch Icon uploaded. The default Apple-Touch icon

will be used instead.

Please click on the 'Browse' button and locate the Apple-Touch Icon (.png) file on your computer and select 'Open'

Choose File No file chosen

Cancel Save

1. Double-click the favicon image to select it and click the **Save** button for your changes to take effect.

## Website Contact

The website contact is the person who would receive an email when a person uses the **Contact Us** Built-in page. To learn more about built-in pages please read the article called [What are Built-in Pages?](#)

1. Click **Website Contact** under the Website area.

## Website

### Website Contact

Define the website contact who will receive inquiries from the general contact us form.

### Edit Meta Tags

Add a description and other keywords that will be used and displayed in search engine results.

### Upload CSS

Advanced users only. Upload a modified stylesheet to override the current theme.

### Search

Show or hide Search field on your website.

1. This takes you to a page where you can update the Website Contact. By default, the system automatically assigns the current year Secretary as the website contact. If one is not specified the system will then look to the next year Secretary, then the current year President or Governor. To choose a specific website contact, please use the drop down box to select the member.

## Website - Edit Meta Tags

Meta Tags are tags used in HTML or XHTML documents to provide structured metadata about a Web page. They provide information about your website, which helps it be found using Internet search engines, such as Google, Yahoo, and Bing.

### Note

Adding meta tags is an optional action. If you choose not to do so, ClubRunner will set default keywords for you based on your information.

1. To go to the Meta Tag page, please click **Edit Meta Tags** under the Website area.

## Website

### Website Contact

Define the website contact who will receive inquiries from the general contact us form.

### Edit Meta Tags

Add a description and other keywords that will be used and displayed in search engine results.

### Upload CSS

Advanced users only. Upload a modified stylesheet to override the current theme.

### Search

Show or hide Search field on your website.

1. To create new Meta tags, click the **Add** button.

### Edit Meta Tags

Meta Tags		Actions
<meta name="keywords" content="Our Club Site">		<input type="button" value="Add"/>
<meta name="keywords" content="Club">		<input type="button" value="Add"/>

1. On the Add Meta Tag page you'll have 4 Meta tag types to choose from:
  - **Keywords:** Enter main keywords for your website, using a comma to separate the values. Do not insert any HTML tags as they are already predetermined by the system.
  - **Description:** Enter your main website description as a sentence. Do not insert any HTML tags as they are already predetermined by the system.
  - **Author:** Enter names to easily find the right person responsible for the Website or published stories. Do not insert any HTML tags as they are already predetermined by the system.
  - **Custom:** Similar to the Keywords type with the difference that HTML tags are not predetermined by the system. You'll require medium to high HTML knowledge in

order to use this option.

Select the meta tag type you wish to use and enter the information in the Content section. The preview section will display your information in HTML format. Once you are finished, click the **Save** button to save your changes.

## Add Meta Tag

### Settings

Meta tag type: Keywords ▾

Content:

Preview: `<meta name="keywords" content="">`

[Cancel](#) [Save](#)

1. While viewing the Meta Tags you can click the **Edit** button to edit the tag or the **Delete** button to remove the tag.

Meta Tags	Actions
<code>&lt;meta name="keywords" content="Our Club Site"&gt;</code>	<div><div>▾</div><div>Edit</div><div>Delete</div></div>
<code>&lt;meta name="keywords" content="Club"&gt;</code>	
<code>&lt;meta name="keywords" content="ClubRunnerSupport"&gt;</code>	

## Website - Upload CSS

The purpose of the **Upload CSS** is to allow you to use your custom CSS within your ClubRunner site.

### Note

The use of custom CSS is recommended for advanced users only. In the event of any unwanted behaviour, deactivate all custom CSS and ensure that themes are enabled.

1. Under the Website area click **Upload CSS**.

## Website

### Website Contact

Define the website contact who will receive inquiries from the general contact us form.

### Edit Meta Tags

Add a description and other keywords that will be used and displayed in search engine results.

### Upload CSS

Advanced users only. Upload a modified stylesheet to override the current theme.

### Search

Show or hide Search field on your website.

1. Click on the **Add CSS File** button.

Drag and drop your css files to change the sequence

CSS File

No CSS files uploaded.

Actions

+ Add CSS File

1. Select the CSS file you wish to use by clicking the **Select File** button. You will be prompted to choose a file from your computer or local network.

### Note

If you upload a CSS file with the same name, it will write over the existing named CSS file.

### Upload CSS File

File

Choose File No file chosen

Make active ☐

Cancel Save

1. Next, click on the **Make Active** check box if you wish to immediately activate your custom CSS file once it is uploaded.

### Upload CSS File

File  No file chosen

☐ Make active

[Cancel](#)

1. Click **Save** to upload the file. Click **Cancel** if you wish to discard your uploaded file.

### Upload CSS File

File  No file chosen

☐ Make active

[Cancel](#)

1. When you upload a CSS, it overrides the built-in CSS themes pre-loaded with ClubRunner. You have the option to disable all system themes, rather than simply overriding them. To do so, click on the **Disable Theme Setting** button under the heading **Theme Setting**. You may enable the system themes again later by clicking on Edit Setting again.

### Theme Setting

Theme Setting: **Enabled**

Disable the system theme if you wish to have your custom css replace, instead of override, the current theme.
