What are Subcommittees? (Enhanced Committee Module Required)

Omar S. - 2021-03-04 - Committees

These are committees that are part of a larger committee.

Subcommittees are visible within the larger committee, and are a nice way to create a structured hierarchy.

Subcommittees can be private or public, and each have access to their own area to define members, documents, emails and subcommittees.

Members of a parent committee have access to information within the subcommittees, but members of a subcommittee do not get access to the parent committee information.
