# What are the Donations settings?

Michael C. - 2025-05-28 - Donations

In order to get started with the donation module, the module will need to be configured through its settings page. This article will cover the different settings available within the donation module and how they are used.

The Donation Settings page can be used to create your first campaign, set the Donations List page description, choose which campaign should appear at the top of the page, and more.

Note

In order to setup the donation module, your organization must already have supported credit card processor account integrated within ClubRunner. If your organization does not currently have an integrated online payment account setup, please contact our <u>ClubRunner</u> <u>Support team</u> and see our <u>How do I set my club up with online payments article.</u>

The Donations module currently supports the following credit card processors:

- Paya (USA)
- Worldline (Canada, USA)
- PayPal (Europe, Australia, New Zealand, USA)
- Stripe (Europe, Australia, New Zealand, USA)

## **Donation Listing Description**

Check this option if you would like Donations module to send an email to the donor, in addition to the receipt email from the integrated online payment vendors, Paya or Bambora.

If checked, you can use the first drop-down to select **System** or **Custom**. When using **System**, the default **Donation Confirmation** email will be sent. You can view the System default Donation Confirmation email, from your Donation Email Templates.

When using Custom, you can select your own custom Donation Email Template to send the

donors. Learn more about setting up your own custom Donation Confirmation Emails.
