Where can I find a list of my Custom Widgets?

Zach W. - 2023-01-04 - Website Widgets

You can see a detailed list of all the custom widgets you've created. They can even be sorted into categories.

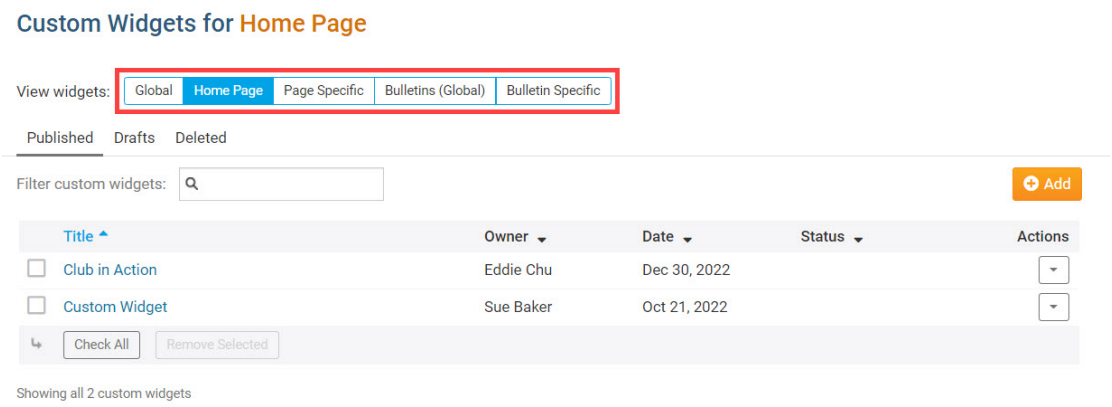

To access the list of all your custom widgets:

1. Login to the **Member Area.**
2. Along the top tabs click **Website** and then **Website Content** on the grey menu just below.
3. Click **Home Page Custom Widgets.**

1. You will see a series of filters in the **View Widgets** section along the top. These filters let you view different types of widgets:
    - **Global**: Global custom widgets can be used for the home page, and any custom pages.
    - **Home Page**: The Page Specific custom widgets that were created for the home page.
    - **Page Specific**: The Page Specific custom widgets that have been created for each custom page. When clicking **Page Specific,** a pop-up will appear to select the **Custom Page** the Page Specific widgets were created for.
    - **Bulletins (Global)**: The Bulletins (Global) widgets can be used on any bulletin.
    - **Bulletin Specific**: The Bulletin Specific widgets that have been created for each bulletin. When clicking **Bulletin Specific**, a pop-up will appear to select the Bulletin the Bulletin Specific

widgets were created for.

1. Once you go to the appropriate list of widgets, you can **Preview**, **Edit**, or **Delete** any widget by clicking on the **dropdown arrow** under the **Actions** column.
