

Widget: Dynamic Carousel

Zach W. - 2023-03-08 - Website Widgets

The Dynamic Carousel Widget allows you to build and design a Carousel slider on your website using powerful customization features.

The dynamic carousel can include links for each carousel image, allowing one space to contain many images from any sponsor, website feature, or news item and link to more content on the club site or other resources.

Note: Before getting started with a new dynamic carousel, please read our [Best Practices guide!](#)

Navigation:

[Configuring & Setting up the Dynamic Carousel Widget](#)

[Uploading & Setting Multiple Slides for the Carousel](#)

[Uploading a Single Slide to the Carousel](#)

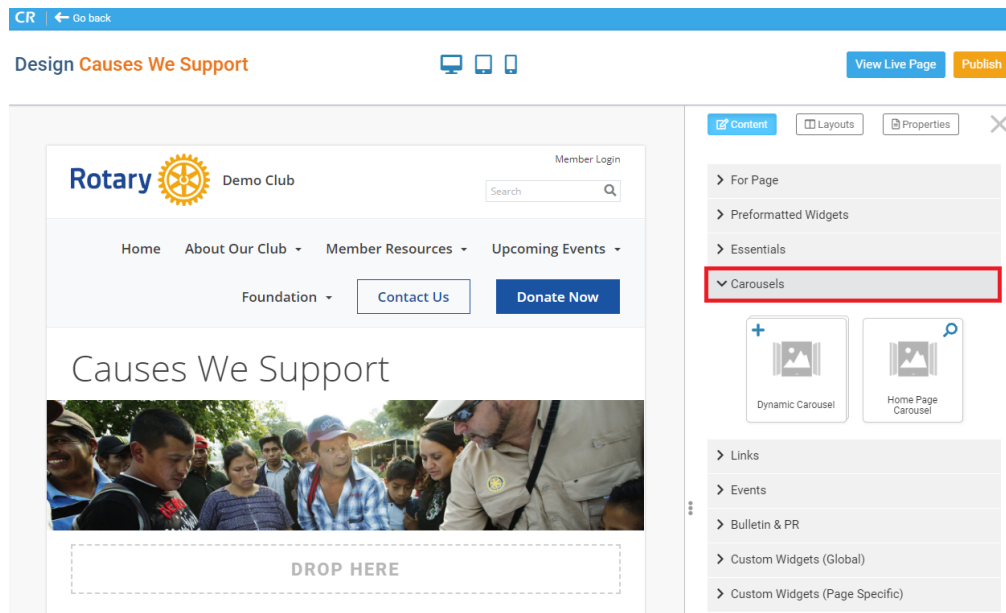

[Deleting & Reorganizing Images](#)

[Editing & Removing the Dynamic Carousel](#)

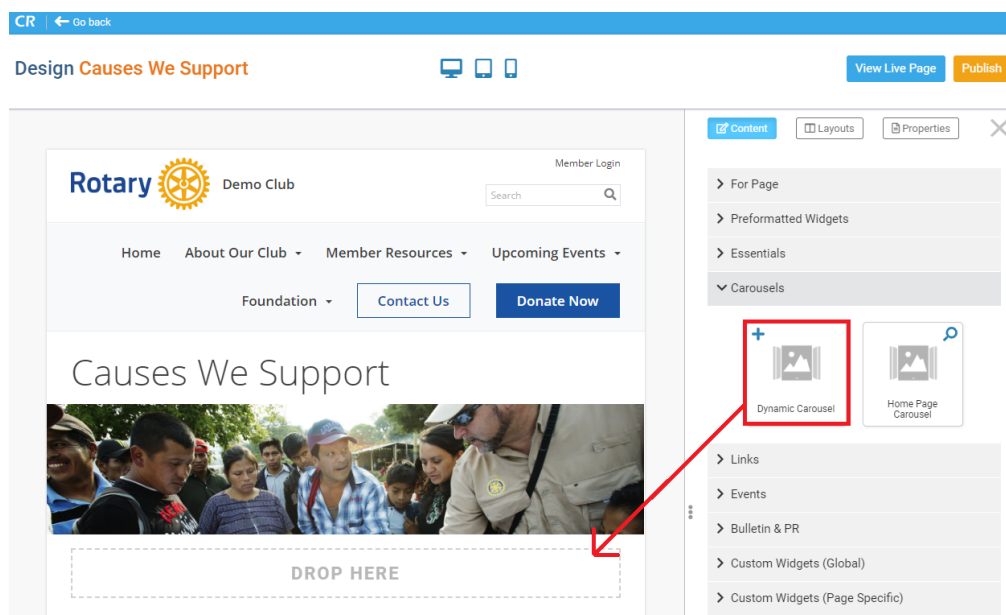

[Publish the Page & Widget](#)

Configuring the Dynamic Carousel Widget

1. Navigate to your website then click **Member Login** at the top right.
2. After logging in click the **Member Area** link in the top right of the organization home page.
3. Inside the member area click **Website** in the top blue bar.
4. Next, choose where to add the Dynamic Carousel Widget:
 - **For the Club Home Page:** click Home Page Designer in the grey bar below.
 - **For a new Custom page:** in the grey bar below click, **Create New Page** in the grey bar below. Then, in the Select Template page, select a template, and click the orange **Next** button in the top right of the Template library.
 - **For an existing Custom page:** click **Custom Page Library** in the grey bar below, then while viewing the library in 'Grid' view, hover over the existing custom page and click **Open** to edit the page.
5. Once in the designer for the page is selected in step 4, open the **Carousels** widget grouping in the **Content** section of the designer.

6. Then, in the 'Carousels' grouping click-and-drag the **Dynamic Carousel** widget into place. Look for a green 'Drop Here' box to know that you're placing this widget properly. Then let go of the primary mouse button to 'drop' the widget into place.
Note: The widget can be dropped above or below any existing widget on the page. A green-shaded 'Drop Here' box will appear, displaying where the widget will drop to.

7. Once dropped onto the page, the 'Details for Dynamic Carousel' page will open. Click the blue **Edit** button in the 'Widget Properties' section to configure the widget.

- In the **Settings** section of the Carousel properties you will see a few items to choose

how the carousel displays the images.

Here you will have options on how to display the images:

Carousel Animation: Use this drop-down menu to choose how the slides transition.

Carousel Indicators Position: Choose where the carousel indicators appear

Transition Time (in seconds): Slide transition time in seconds

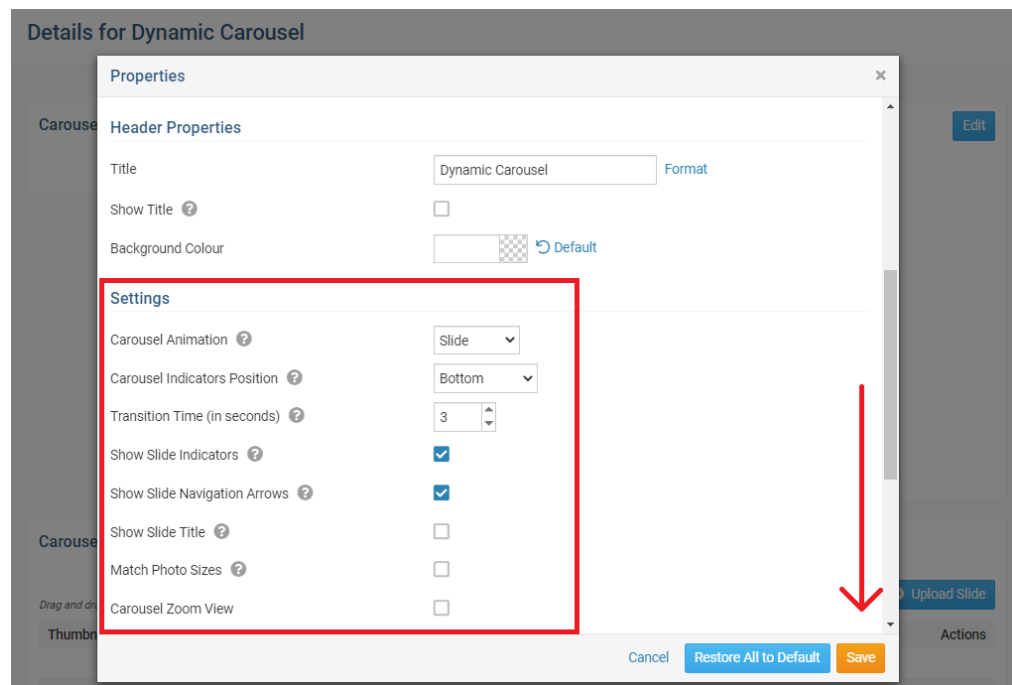

Show Slide Indicators: By default slide indicators will appear at the bottom of the carousel as a clickable 'dash' for each image

Show Slide Navigation Arrows: Show Carousel Navigation arrows to go to the next or previous slide

Show Slide Title: Show the Slide Title which is assigned to each slide

Match Photo Sizes: Match all slide sizes to the largest size

Carousel Zoom View: This setting 'Enlarges' the image if the viewer hover overs the image

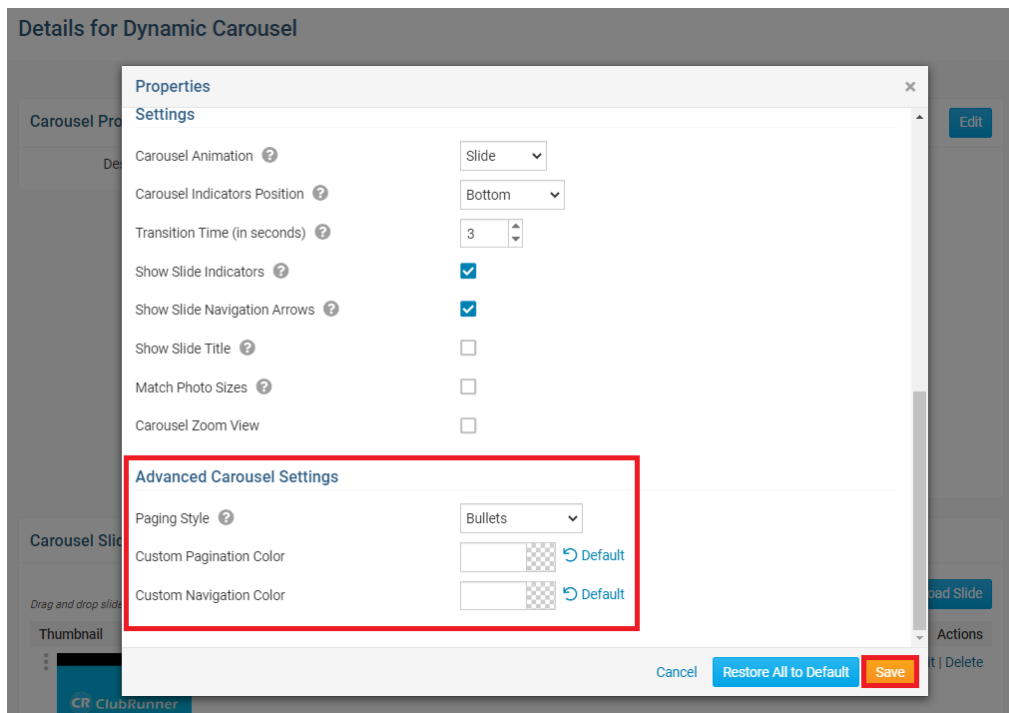

10. After configuring these settings, scroll down further to view the **Advanced Carousel Settings**. The advanced settings control the styles of the bullets or indicators for the slides.

Paging Style: Choose how to display the slide indicators (Bullets, Dynamic Bullets, Progress Bar, Fractions)

Custom Pagination Color: Choose the color of the slide indicator

Custom Navigation Color: Choose the color of the slide navigation arrows

11. When the widget is set with its configuration options click the orange **Save** button in the dialog.

Setting Multiple Slides for the Dynamic Carousel

1. While on the Details for [Dynamic Bulletin Widget Title]' page, scroll to the bottom of the page and you will see two options to upload slides to the carousel. To upload multiple slides, click the **Upload Multiple Slides** button.

- The 'Upload Slide to Dynamic Carousel Title' page will appear. On this page, click the **Add Files** button to add the images from your device.

Upload Slides to Dynamic Carousel

Select files

1. Drag and drop your image files from your computer to the image uploader box below. Or, click on the **Add files** button at the bottom of the image uploader to select your files.

Tip: To select multiple files, hold down the **Ctrl** key and click on each one. To select a group of files, click on the first file, then hold down the **Shift** key and click on the last file.

Maximum file size for upload is 15.00 MB.

Supported extensions: bmp,gif,jpg,jpeg,png,tif,tiff.

2. Click on the **Start upload** button.

Editing, updating or removing the Dynamic Carousel

If the Club is looking to make further edits or changes to the carousel, or remove it altogether, return to the live page designer for the Custom page or Home page, and hover over the widget.

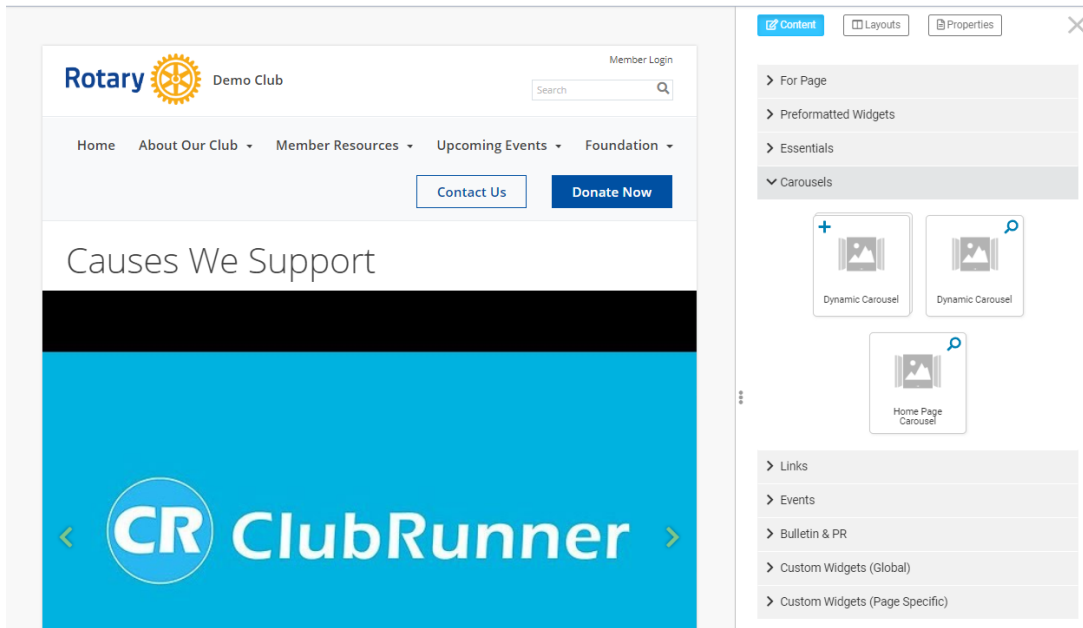

The screenshot shows a web editor interface for a Rotary Demo Club website. The main content area displays a 'Causes We Support' section with a 'Dynamic Carousel' widget. The carousel has a blue background with the text 'CR ClubRunner' and a small icon. Above the carousel is a 'Banner (Full Width)' section. The right-hand sidebar contains a 'For Page' section with four widget options: 'Page Stories', 'Page News', 'Page Download Files', and 'Page Photo Albums'. Below this is a 'Preformatted Widgets' section with a list of widget categories: Essentials, Carousels, Links, Events, Bulletin & PR, Custom Widgets (Global), and Custom Widgets (Page Specific).

There will be three icon's in the top-right. From left to right, you will see an 'Out-Bound Arrow', 'Gear' and ' X ' icon.

- **Out-Bound Arrow:** Return to the 'Details for Dynamic Carousel' page
- **Gear Icon:** Opens the 'Properties Widget' Dialog box
- **' X ' Icon:** Removes the widget from the page. Please note you will still find this widget in the 'Carousels' widget grouping.

Publish the Page

When the Dynamic Carousel is all set and configured, remember to 'Publish' the page to save the changes to the Club Home Page or Custom Page.

The screenshot displays the Rotary Demo Club website editor. The main preview area shows a website header with the Rotary logo, a search bar, and navigation links: Home, About Our Club, Member Resources, Upcoming Events, and Foundation. Below the header is a "Causes We Support" section featuring a large blue banner with the "CR ClubRunner" logo. To the right, a sidebar menu is open, showing the "Content" tab. Under the "Carousels" section, three dynamic carousel widgets are visible: two labeled "Dynamic Carousel" and one labeled "Home Page Carousel". The "Home Page Carousel" widget is selected, and its configuration options are shown in the "Properties" tab, including a list of links: Links, Events, Bulletin & PR, Custom Widgets (Global), and Custom Widgets (Page Specific).

This will complete the setup for the new dynamic carousel widget and its images and links. Members and Visitors can now see the images and, when clicked, be taken to the resource or website address.
