

Widgets: News

Zach W. - 2021-02-08 - Website Widgets

You use widgets to add content, such as stories, links and upcoming events, to your bulletin or web page. They are essential design features, and each one has a different function. In this article we'll take a closer look at the **News** widget, which is specific to the Web Designer tool. The **News** widget operates similarly to the **Stories** widget. The two different widgets may be used to better manage your organization's longer pieces and shorter, more time-sensitive, articles.

1. To access any widget, you need to be logged into your webpage. Then, access your webpage editor.
2. Once you have opened the content you wish to edit, you can access the **News** widget on the left side of the screen. It is under the **Essentials** widget tab.
3. When placed into your content, the **News** widget displays any stories or articles you may have associated with it.

Home Page News

Rotary Foundation Named World's Outstanding Foundation for 2016

The [Association of Fundraising Professionals](#) has recognized The Rotary Foundation with its annual Award for Outstanding Foundation.

The award honors organizations that show philanthropic commitment and leadership through financial support, innovation, encouragement of others, and involvement in public affairs. Some of the boldest names in American giving — Kellogg, Komen, and MacArthur, among others —are past honorees.

World Polio Day Continues to Grow

Participation in this year's World Polio Day live-streamed event continued the growth registered since it began in 2014.

Rotary, the world's leading advocacy organization on polio eradication, held this year's program on 24 October at the headquarters of the U.S. Centers for Disease Control and Prevention (CDC) in Atlanta, Georgia, USA. The event brought some of the biggest names in the campaign together to highlight the progress that has been made and to discuss what further action is needed to end the disease for good.

4. To choose the stories associated with the widget, you must edit it. Do this by hovering your mouse over the widget. Then, click on the **Pencil** icon.

5. You are now on the **News for Home Page** interface. Here, you may view all your

created stories and select them for addition to the widget content. To add an existing story, click **Add Stories from the Story Library**.

News for Home Page

Click on the Story Library Link below to access all of your stories, or click on one of the other links to access the stories for a specific section of your website or bulletin.

Go to: [Story Library](#) [Stories Widget](#) [Stories List Page](#) [Custom Page Stories](#) [Bulletin Stories](#)

Drag and drop story titles to change their sequence.

[Add Selected Stories](#)

Select from the list of stories below then click on Add Selected Stories

Title	Author	Date	Published On	Status
<input checked="" type="checkbox"/> Growing a Future in Cape Town		Nov 28, 2016	Oct 06, 2017	
<input type="checkbox"/> Elect to be Civil		Nov 28, 2016	Nov 28, 2016	
<input type="checkbox"/> What's Next for Rotary?		Nov 28, 2016	Nov 07, 2020	

7. Finally, you may edit the stories assigned to the widget with the links under the **Actions** heading.

- **Edit:** Click here to edit the content of the story.
- **Links:** This allows you to add a related link to the story page. This link will appear under the heading **Page Links** on the full version of the story.
- **Files:** Use this link to add download files to the story. This permits users viewing the story's page to download associated files.
- **Remove:** Click this link to remove the story from the widget. Remember, this does not delete the story. It simply removes the content.

Editing Widget Properties

Each widget has a function that permits you to edit the widget properties. Most widgets

have standard properties, but some have special rules.

1. To access the widget properties, hover your mouse over the widget once it is in place. Click on the Gear icon when it appears.

2. You may now edit categories under the various headings. Under the **General** category you can edit spacing and border properties for the widget's border.

- **Show Border:** Click this check box if you wish to display a border around the widget.
- **Padding Left:** Enter a value in pixels to set a space to the left of the widget.
- **Padding Right:** Enter a value in pixels to set a space to the right of the widget.
- **Padding Top:** Enter a value in pixels to set a space above the widget.
- **Padding Bottom:** Enter a value in pixels to set a space below the widget.
- **Border Style:** Use this drop-down menu to choose a border style.
- **Border Thickness:** Enter a number to change the border setting. Leave blank to set the default.
- **Border Colour:** Click on the colour choice window to set a border colour.

Border Colour:  [Default](#)

3. In the section marked **Header Properties** you may customize the appearance of the widget title.

- **Title:** Use this field to enter a new title for the header. This will not change the title of the widget, but rather the heading under which the widget is displayed. You may edit the style and appearance of the text with the format options link to the right of the title field.
- **Show Title:** Uncheck this box if you do not wish to display the title.
- **Background Colour:** Use this colour selection window to set the background colour of the font.

Show Title:

Background Colour:  [Default](#)

4. Under the **Content Properties** heading, you may adjust the appearance of the content and select which information to display.

- **Show Content Item Title:** Click this if you wish to display the title of a given item within the Story widget.
- **Content Item Title Font:** If you wish to display Item Titles, you may define their font with this field.
- **Content Item Title Font Size:** Use this to set the font size of your displayed Item Titles.
- **Content Title Background Colour:** Use this colour selection to set the background colour of your content Item Titles.
- **Content Title/Link Colour:** Use this colour selection window to set the colour of your content title, as well as any links within it.
- **Content Background Colour:** Set the background colour of your content.
- **Show Thumbnail Image:** Display a small preview picture for content in the form of images.
- **Show Brief:** This displays the brief, a summary of the story.
- **Font:** Use this drop down to select the font you wish to use for your content text.
- **Colour:** Use this colour selection window to set the colour of the brief text.
- **Show Link Separator:** Click this option to display a line between story item.
- **Line Separator Style:** Use this drop down menu to select the style of the separation lines.
- **Line Separator Thickness:** Enter a number here to set the thickness of the separation lines.
- **Line Separator Colour:** Use this colour selection window to set the colour of the separation lines.

Content Properties ?

Content Item Title Font:	<input type="text" value="Default"/>
Content Title Background Colour:	<input type="text"/>  Default
Content Title/Link Colour:	<input type="text"/>  Default
Content Background Colour:	<input type="text"/>  Default
Show Brief:	<input checked="" type="checkbox"/>
Font:	<input type="text" value="Default"/>

Show Line Separator: ?	<input type="checkbox"/>
Line Separator Style:	<input type="text" value="Solid"/>
Line Separator Thickness:	<input type="text" value="1"/>
Line Separator Colour:	<input type="text"/>  Default

5. The **Settings** category controls additional functions of the widget.

- **Show "Read More" Link:** Select this if you wish to display a "Read More" link beneath each story, which will open in a new window.

Settings

Show "Read more..."
link:

6. If you wish to get a sneak peek of your formatting changes, refer to the **Preview** window on the right side of the screen. To see updates, click the **Refresh** button.

Note: The Preview button displays placeholder content that reflects your style changes, and not the actual content of your widget.
