ClubRunner

ClubRunner Maintenance Window - Jul 14 2022

2022-07-12 - Zach W. - Maintenance Notices

On Thursday July 14th 2022 during our regular maintenance window we will be making changes to our system infrastructure to improve stability and performance. During this time you may experience delays with website updates and email processing. You may also find that certain pages and functions may take longer to load, within in the Member's Area.

We expect an average of 5 - 10 minutes of processing delays for website updates and email services during the maintenance period.

We will post an update on our knowledgebase once the update has been published.
