[Completed] ClubRunner Nova Maintenance Window - July 21, 2026

2026-07-17 - Zach W. - [Maintenance Notices](#)

Tuesday, July 21, 2026 | Starting at 9:00 AM NAEST

As part of preparations for the upcoming District Nova release, we will be conducting a data migration affecting Club Officer data.

During this time, officer-related email recipient lists at the club level may be temporarily unavailable or may not display up-to-date information.

Once the migration is complete, all functionality will return to normal automatically. This maintenance only impacts Nova based accounts, and not Classic ClubRunner accounts.

We will post an update when maintenance has concluded.

Thank you for your patience and understanding.

July 21, 2026 5:00 PM NAEST

The maintenance has completed successfully, all officer smart lists should be working as expected again.
