ClubRunner

ClubRunner System Infrastructure Updates Nov 10 - Nov 14 2020

2020-11-09 - Zach W. - Maintenance Notices

On Tuesday, November 10th 2020 starting at 8 AM NAEST, ClubRunner will begin updates to our internal infrastructure. This update is a part of our continuing renovation process for which more information is available here: https://www.clubrunnercommunity.com/threads/clubrunner-it's-renovation-time.319/

Behind the scenes, we will be switching to updated configurations for the admin (admin.clubrunner.ca), content editing (content.clubrunner.ca), grants (grants.clubrunner.ca), and portal (portal.clubrunner.ca) systems in our production environment.

- Admin, Content, and Grants will start their migration on Tuesday, November 10th. We expect this to complete by Thursday, November 12th.
- Portal will be migrated on Saturday November 14th.

We do not anticipate any major downtime, and we will be monitoring each update closely to ensure there are minimal interruptions.
