ClubRunner

Mobile App 4.0.0 Build 117 - Release Notes

2025-06-12 - Zach W. - Product Updates

Thank you for testing the latest beta version of the ClubRunner mobile app! Today, we released an update with ersion 4.0.0 (117), which includes a number of improvements and bug fixes to enhance your experience:

- Improved alignment and padding across all screens for a cleaner layout.
- Enhanced styling for selected tabs and other visual elements.
- The app now remembers your preferred language between sessions.
- Fixed an issue where the names of days in the calendar could be hidden or cut off.
- Updated the confirmation popup when sending notifications to include more details about delivery and selected groups.
- Addressed the broadcast notifications showing an incorrect number of remaining notices.
- Resolved an issue that prevented Rotary member recognition data from appearing.
- When updating a member’s profile photo, a new option to remove the photo is now available.
- Addressed an issue where the "State" or "Province" fields could not be edited.
- Member street addresses now properly wrap to a second line when needed.
- Improved how we display the District’s Organization chart to more closely match its web version.

    - Officer order in the Organization Chart now aligns with the web version.
    - Position names now display correctly in the Organization Chart.
    - Labels now use names instead of codes.
- Fixed an issue where links in story content didn’t work as expected.
- Improved Time formatting to match the selected culture correctly.
- Various internal improvements and performance optimizations.

To get the latest update:

- If you're using an Apple device, you should receive an email from **TestFlight** letting you know the new version is available. You can also open the TestFlight app directly to install the update.
- If you're on an Android device, updates are typically installed automatically through the Google Play Store.

Thank you again for being part of our beta program. If you are not part of our beta testing program and would be interested in helping test new features for the mobile app, click here to join.
