## Modern Dashboards available for all Customers.

2021-12-03 - Zach W. - Product Updates

We're pleased to announce the release of our modernized ClubRunner Dashboards for Zones, Districts, and all clubs subscribers.

A fresh new approach to your administrative landing page based on your access role, navigating the Admin pages has become easier. You will now be able to view the features relevant to your permissions. With each section divided into a core function, each panel has 'quick action buttons' to take you directly into getting started with a feature. Need to send an email or create a Volunteer sign up list, you can just click and start!

Your members also will no longer see a list of greyed out links as before. Instead, now they will have quick links to all the pages available to them when logged in.

We've also highlighted all the support resources available to you such as on-demand tutorials, webinars, our knowledgebase and community and have added direct help links next to all the main modules to direct you to relevant help articles. As we release new features and have exciting announcements, you'll get the news right upon logging in under the What's New panel.

### District Administration

The screenshot shows the ClubRunner Administrator dashboard for a District Administrator named Kevin Turner. The dashboard is modernized and features a blue header with the Rotary logo and a welcome message: "Welcome back, Kevin!". Below the header, there are several panels:

- My Membership:** Displays the user's name (Kevin Turner) and an "Edit Profile" button. It also lists several menu items: My Commitments, My Email History, My Committees, View Directories, and Search Member Directory.
- Need Help?:** A central panel with a "Register for a Webinar" button, "Access Knowledgebase", "Join the Community", and "Contact Support". It includes an illustration of a person with a headset and a "Get a guided tour of how each module works, so you can get the most out of your role." message.
- What's New:** A panel titled "Training Recordings Now Available" with a play button icon. It contains a thank you message for the ClubRunner Changeover Training Series and a "View Recorded Webinar!" button.

Below these panels, there are two main management sections:

- District Management:** A section for managing key information and functions of the district, including a "District Organization Chart" button and a "Help" link. It lists sub-features: District Organization Chart, District Committees, Member Access Rights, Define Club Position Types, Manage Club Types, and Manage Designations.
- Club & Membership Management:** A section for managing clubs and their membership within the district, including a "Clubs & Membership" button and a "Help" link. It lists sub-features: Clubs & Membership, Define Club Executives, Club Attendance, Admin Member Search, and Member Designations.

### Members & Club Officers

Welcome Kevin!

Access all the tools and resources you need to stay connected with your district.
