New Membership Types available to all Rotary clubs & districts

2019-11-22 - Zach W. - Product Updates

We are pleased to announce that all Rotary clubs using ClubRunner have two new membership types available to them:

- Active - Satellite
- Active - Corporate

These new membership types are a way for clubs to help further categorize their membership in ClubRunner. Rotary International will see members added in these categories as Active members of the club.

The new membership types are available when:

- Adding new members
- Re-activating past members
- Changing a member from Honorary to Active
- Editing active membership type

If your club had previously requested a custom membership type to handle Active - Corporate or Active - Satellite membership types, these have been migrated into the new universal types.
