ClubRunner

Password Update Notice

2026-01-12 - Zach W. - Product Updates

As part of our ongoing efforts to enhance the security of our platform, we will be introducing updated password requirements across ClubRunner starting **Monday, January 12, 2026**.

Most members will not need to take any action right away. In some cases, **you may be asked to update your password** the next time you log in. If so, the system will guide you through a quick and straightforward process.

Thank you for your continued support as we work to keep ClubRunner secure for all members.
