

[Resolved] Cloudflare temporary outage - Friday, July 17, 2020

2020-07-20 - Mickey D. - Service Issues

This past Friday July 17th, an infrastructure issue on CloudFlare's end caused a major disruption to many service providers. As a result ClubRunner websites had a small outage that impacted some customers between 20:00 and 22:00 UTC0. The issue affected several other web services worldwide as well, such as Netflix and Google.

You can read Cloudflare's official report here:

<https://blog.cloudflare.com/cloudflare-outage-on-july-17-2020/>

Cloudflare fixed the issue and are now working to update their systems to prevent this from happening in the future.

We apologize for any inconvenience this may have caused.
