ClubRunner

[Resolved] ClubRunner Maintenance - Service Interruption

2020-01-02 - Zach W. - Service Issues

Every other Thursday ClubRunner has a maintenance window, during which updates to the platform are applied. During this morning's maintenance, an issue arose that prevented access to ClubRunner websites including the ClubRunner.ca homepage.

We were able to take appropriate measures to resolve the issue that was impacting access to the account's website. You should once again have full access to your ClubRunner account.

We apologize for the inconvenience and appreciate your patience while we worked to resolve the issue.
