ClubRunner

[Resolved] ClubRunner Service Interruption - Delayed Rendering / Website Updates

2021-07-09 - Zach W. - Service Issues

[July 9 2021 3:30 PM]
This afternoon at 2:15 PM (NAET) the ClubRunner team identified a delay in processing website updates. We are currently working to investigate and resolve this issue.

Any published changes are waiting to be processed. We are seeing an average delay between 5 to 10 minutes. As the backlog starts to clear out, the updates will be published. **No action is required to have your websites updates published.**

We will continue to post updates as more information becomes available.

We apologize for the inconvenience and appreciate your patience while we work to resolve the issue.

[July 9 2021 4:50 PM]

The backlog of website updates have been successfully processed, and we are once again seeing more normal website update times.

This issue is now resolved.
