[Resolved] Localized Service Interruption - CloudFlare - Portal unavailable

2021-06-08 - Zach W. - Service Issues

[June 8 2021 4:30 PM]

This issue was resolved by CloudFlare at 12:30 PM NAEST.

[June 8 2021 12:00 PM]

Starting at 11:40 AM NAEST time, our team identified that customer websites were not always loading for users in the Greater Toronto Area, with a CloudFlare error message.

CloudFlare has applied workarounds to ensure websites are operational again for impacted users, while they continue to address the root cause. For the most up to date information, please check the active announcement for this issue: https://www.cloudflarestatus.com/incidents/2hnqwq90dlrk

We will post more information as it becomes available.
