This afternoon at 3:00 PM NAEST the ClubRunner team identified an issue when attempting to use or login to the ClubRunner mobile app. This issue is preventing access to the app, as the saved login details cannot be authenticated successfully. We are currently working to investigate and resolve this matter.

Until the issue is resolved, you will be unable to login or access information in the app, if your device is connected to the internet. We will continue to post updates as more information becomes available.

We apologize for the inconvenience and appreciate your patience while we work to resolve the issue.
